Superb Cooling, Timeless Design

The ProArt PA602 Wood Edition showcases a crafted wooden design, embodying your unique style while promoting sustainable elegance with environmental certification from the Forest Stewardship Council® (FSC®). A six-stage process integrates durable and beautiful thermowood with optimal airflow and enhanced cooling, to inspire creative professionals seeking focused workflows. With a front panel designed for maximum air intake, a thick pre-installed 140 mm rear fan and two 200 mm front fans, an integrated fan hub and support for a 420 mm radiator, it delivers top-tier performance right out of the box.

Naturally Crafted

Ash wood, an uncommon choice for this style of case, is specially selected for its high durability. Our special six-stage design process begins with thermowood treatment to protect this premium material from insects, humidity and heat. Then it is shaped and grinded, refining each piece to our exact specifications. Finally, a two-step coating elevates its unique coloration with a glossy finish. The ProArt PA602 Wood Edition offers a distinctive look that elevates personal style while supporting eco-friendly practices. The ash wood used in this case is certified by the FSC®, making it an excellent choice for style-conscious tech enthusiasts who value sustainability.

COOLING

Air Superiority

The PA602 Wood Edition features an open front grill with high porosity to maximize airflow and ventilation. Meanwhile, extra-thick PWM fans yield very high airflow and pleasant acoustics, and pre-installed dual air deflectors work in concert to help centralize cool air for both graphics cards and CPU cooler air intake, enhancing cooling efficiency for the whole system.

Two Choices for your Preference

To cater to a variety of DIY builders, the PA602 Wood Edition is offered in two versions. The metal side panel version prioritizes cooling efficiency and durability, while the version with a tempered glass side panel offers more aesthetic appeal and the opportunity to display the personalized inner workings of your PC.

Ample Space

Space for Powerful Components

The ProArt PA602 Wood Edition supports one 420 mm radiator for AIO cooling or custom liquid-cooling loops. It also provides sufficient space for the beefiest graphics cards in both horizontal and vertical mounting positions.

Design

Creator-friendly Design

The ProArt PA602 Wood Edition streamlines your PC building experience with a full suite of innovative features, and it's primed for convenient everyday use with automatic dust detection, built-in wheels for effortless moving and more.

Connectivity

Front I/O Optimized for Creators

Thoughtful touches streamline the day-to-day experience for artists and designers.

Premium Fan Speed Control

With integrated PWM control, switching between normal and working scenarios is effortless.

20Gbps USB Type-C®

The PA602 Wood Edition incorporates one 20Gbps USB Type-C port alongside two USB 3.0 and two USB 2.0 ports, for future-proof and backward-compatible connectivity with compatible motherboards.

Power Lock Latch

The power button is intelligently designed with a physical latch to prevent accidental presses during your work session, to help provide a hassle-free experience.

Expandability

Superior Storage Expandability

This chassis supports up to four HDDs or up to eight SATA SSDs, ensuring ample storage capacity for your data storage needs.

Summary: ASUS ProArt PA602 Wood Edition – Metal Panel. Form factor: Midi Tower, Type: PC, Product colour: Black. Front fans installed: 2x 200 mm, Front fans diameters supported: 200 mm,
