content is delivered with stunning clarity, vivid color, and realistic detail, captivating any audience.

## Optimized Performance and Sleek Design

Running on the upgraded LG webOS22 smart signage platform, the 75UN640S0LD offers high performance and an intuitive Graphical User Interface (GUI), simplifying content management and task execution. Its improved design features a significantly slimmer depth compared to conventional LG models, allowing for easier installation and a space-saving profile. The sophisticated blue color further enhances the aesthetic of the installation space.

- **Display Size:** Massive 75-inch screen diagonal (190.5 cm).
- **Resolution:** Native 3840x2160 (4K Ultra HD) for superior detail.
- **Brightness:** 330 cd/m<sup>2</sup> for clear indoor visibility.
- **Operating System:** High-performance LG webOS22, offering streamlined operations.
- **Embedded Management:** The integrated Content and Group Management System (CMS) allows content editing, scheduling, and control using only a remote control or mobile phone, eliminating the need for a separate PC.
- **Professional Integration:** Supports Crestron Connected® and is compatible with Cisco solutions, enabling seamless automated control for efficient business management.

## Advanced Connectivity and Features

The 75UN640S0LD provides robust networking capabilities, including built-in Wireless LAN (Wi-Fi) and Bluetooth. It can also function as a Wireless Access Point (Soft AP) for mobile devices. Utilizing Bluetooth Low Energy (BLE), shop managers can provide real-time promotions and share content easily.

## Key Technical Specifications:

- HDMI ports: 3
- USB 2.0 ports: 1
- Network Connectivity: RJ45 (Ethernet), Wireless LAN, Bluetooth
- Control & Outputs: RS232, CI Slot, Optical S/PDIF, Headphones jack, Audio-Out (1)
- Mounting: VESA 400 mm x 400 mm
- Security: Kensington lock support

## **LG TV Signage with Essential Function**

### **Superb Picture Quality with Ultra HD Resolution**

With the resolution that is 4 times higher than FHD, it makes the color and details of the contents more vivid and realistic.

### **Improved Design with Slim Depth**

This series is thinner than LG conventional\* model to save space and enable easy installation. In addition, its sophisticated ahseid blue color improves the décor of the space where the product is installed.

\* 'LG Conventional' refers to LG UT640S series.

### **High-Performance with LG webOS22**

LG webOS22, with an upgraded SoC\* and web engine, is available on the UN640S series for the easy execution of several tasks. The LG webOS smart signage platform enhances user convenience with an intuitive GUI.\*\*

\* SoC : System On Chip

\*\* GUI : Graphical User Interface

### **Embedded Content & Group Management**

The embedded Content and Group Management System allows you to edit and play content, schedule playlists and groups, and control signage via remote control, mouse and mobile phone

without the use of separate PC or software. This makes content management easy and user-friendly.

### **Versatile Content Management with LG SuperSign CMS**

LG SuperSign CMS is integrated management program supporting creation and management of digital media and content deployment, optimized for LG signage. With its simple and intuitive menus and layout options, it enhances efficiency for content creation and editing, scheduling and distribution, improving user experience. In addition, it supports multiple displays and accounts, is able to be linked to external databases, and allows server access from mobile devices.

\* LG SuperSign CMS is sold separately

### **Easy Group Control**

The UN640S series supports SuperSign Control+ Free version which can manage up to 100 displays through a single account and server. Power, volume, and scheduling can be remotely adjusted, and firmware updates supported.

### **Compatible with AV Control Systems**

The UN640S series supports Crestron Connected® \* for high compatibility with professional AV controls to achieve seamless integration and automated control\*\*, boosting business management efficiency.

\* Initial setting from display is required for Crestron Connected® compatibility.

\*\* Network based control

### **Compatible with Video Conference System**

For effective visual meeting, the UN640S series supports its compatibility\* with Cisco solutions that offers powerful and integrated control\*\* for a smarter video conference.

\* Cisco compatibility will be certified in Q3 of 2023.

\*\* Using an HDMI cable connection (HDMI cable is optional)

### **Display Power Management Support**

Display Power Management (DPM) can be configured to be on only when there is a TV signal present
