54.99€

CarPlay wireless adapter with USB cable McDodo CA-7210 black

The McDodo CA-7210 will allow you to quickly and conveniently change your standard CarPlay to a wireless version. Just plug it into your car's USB port, pair it with your phone via Bluetooth. In addition, an automotive-grade A7 chip, which supports 2.4 GHz and 5.8 GHz Wi-Fi frequencies, is responsible for smooth and reliable operation. Thanks to this solution, driving becomes more comfortable, and the car interior - free of tangled cables.

Wide compatibility with different car models

The adapter works with most cars that support wired CarPlay. It comes with an adapter from USB-A to USB-C, which increases its compatibility – regardless of the type of connector in the car. This

solution will work for both older and newer vehicle models.

Compact and robust design

The device is made of a combination of aluminum and glass, which increases durability. The cable braid is resistant to abrasion, and the adapter itself does not take up much space, so it does not obstruct the view and will not take up much space.

Support for voice control

The adapter supports voice control features, including the Siri assistant. This allows you to safely manage calls, music or navigation without taking your hands off the wheel or your eyes off the road.

Included

- CarPlay wireless adapter
- USB-A to USB-C adapter
