The stock double shot PBT keycaps have the keys' secondary functions printed on them so you can quickly locate any additional functionality you need. - An optimized balance of compactness and functionality. The 65% form factor frees up more mouse space than a tenkeyless keyboard, but keeps dedicated arrow keys, Page Up/Down, Home, and Delete keys.
- The aluminum casing keeps the keyboard structurally sound and stable when the action gets intense and the game hangs in the balance; battle after battle, night after night.
- The keycaps are designed with durable PBT material that is resistant to wear, friction, and solvents. Secondary functions are printed on the sides of the keycaps for quick recognition.
- Reliable HyperX key switches are balanced for speed and accuracy to help provide the best of both worlds; faster keypresses with fewer mistakes. With an exposed LED design, they deliver stunning RGB lighting that really stands out.
- Get brighter, more luminous RGB lighting, thanks to the exposed LED design of the HyperX mechanical switches.
- Customize Game Mode, build macros, and set up per-key lighting and effects.
- Two-step keyboard feet allow you to set your keyboard up at 3 different tilt angles. A detachable USB-C cable makes this ultra-compact keyboard super portable.
- A keycap puller, an additional Esc key, and the special alternate spacebar design for the Alloy Origins 65 are included for additional customization.
