performance and save time. It only takes 11 minutes for the charge level to reach 30%, 27 minutes for 70%, and a full charge takes only 52 minutes. Support for the most popular charging protocols, such as PD, QC, PPS, FCP, SCP and UFCS, guarantees compatibility with a variety of devices and ensures stable and safe energy renewal.

Wireless freedom

The EcoFlow product also supports wireless charging at 15W, enabling fast charging without the need for cables. With compatibility with the Qi1.0 (5W) and Qi2.0 (15W) standards, the powerbank is tailored to wirelessly renew the energy of Android devices and iPhones from model 13 and up. To charge an iPhone 15 to 50%, 44 minutes is enough.

Lightweight, compact design

Despite its large capacity, the EcoFlow RAPID powerbank maintains compact dimensions (108 x 70 x 22.9 mm) and weighs only 258 g, so you can conveniently place it even in your pocket. Opt for a portable power source that is perfect for both travel and everyday use without adding unnecessary weight to your bag!
