### Uperfect UColor O2 M160B01 Portable Monitor 2880x1800 120Hz

The Uperfect UColor O2 M160B01 is a 16-inch portable monitor equipped with an OLED panel with a resolution of 2880 x 1800 pixels. It stands out with its high image quality, wide connectivity options, and precise color reproduction. With a 16:10 aspect ratio, 120Hz refresh rate, and brightness reaching 500 cd/m<sup>2</sup>, it works well for both dynamic content and design work. The device supports the VESA mounting standard, supports 100% of the DCI-P3 color space, and provides a color depth of 1.07 billion colors.

### Clear image in all conditions

The OLED matrix provides a static contrast ratio of 100,000:1 and a wide viewing angle of up to 178°. This ensures that the image remains clear and detailed regardless of lighting conditions. Deep blacks and precise detail reproduction improve comfort in both bright offices and low-light environments. The 2880 x 1800 resolution with a 16-inch diagonal translates into high pixel density, ensuring a clear, sharp image even for small graphics and text. The matrix reproduces 100% of the DCI-P3 color space, and the color depth reaches 1.07 billion (8-bit + FRC), ensuring smooth tonal transitions without banding.

## Smoothness and precision

With a refresh rate of 120 Hz, the image displayed on the screen is significantly smoother than on standard 60 Hz monitors. This is an important feature for people who work with animations, edit videos, or simply appreciate smooth transitions when scrolling through content. High brightness (500 cd/m<sup>2</sup>) allows you to use the monitor in a variety of lighting conditions.

## Freedom of configuration

The Uperfect UColor O2 M160B01 portable monitor can be conveniently connected to various devices via two USB-C ports and a Mini HDMI port. One of the USB-C ports supports power delivery, while the other allows image transfer. There is also a 3.5 mm headphone jack on the housing. Thanks to its compatibility with the VESA mounting standard (M4 × 4 mm holes), the monitor can be installed on a desk or wall mount. All control buttons are located on the side of the housing for easy access to settings.

## Included:

- Portable monitor
- PD power adapter
- Smart Cover case (also functions as a stand)
- Mini HDMI to HDMI cable
- USB-C to USB-C cable x2
- User manual
