DELL P2425D 23.8-inch QHD Business Monitor: Productivity and Comfort Combined

The DELL Pro Plus P2425D is specifically engineered for professionals seeking high productivity, exceptional visual clarity, and superior eye comfort throughout long workdays. This 23.8-inch monitor features Quad HD (QHD) resolution, a smooth 100Hz refresh rate, and an advanced IPS panel, making it the ideal centerpiece for any modern office workspace.

Superior Visual Performance and Smooth Motion

Experience outstanding detail and color accuracy crucial for data analysis, design, and complex multitasking.

- **QHD Resolution (2560 x 1440):** Enjoy crisp, sharp images where every detail stands out, providing significantly more workspace than standard Full HD displays.
- **IPS Panel Technology:** Ensures vibrant and consistent colors (99% sRGB coverage) and clarity across extremely wide 178° viewing angles.
- **100Hz Refresh Rate:** Delivers smoother on-screen motion, reduced flicker, and fluid scrolling, contributing to a more comfortable and responsive user experience.
- **High Contrast:** A powerful 1500:1 contrast ratio provides deeper blacks and brighter whites.
- **Fast Response Time:** Features a rapid 5ms (GtG fast) response time.

Certified Eye Comfort (TÜV 4-Star)

Work longer without fatigue thanks to industry-leading eye comfort certifications and technologies.

- **TÜV Rheinland 4-Star Certified:** Meets stringent standards for enhanced visual comfort, actively reducing eye strain.
- **Improved ComfortView Plus:** This built-in, always-on low blue light feature reduces harmful emissions to less than 35% without compromising the monitor's color integrity.

Optimized Connectivity and Ergonomics

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Gamintojas ir pardavėjas neatsako už galimus duomenų neatitikimus ar tipografines klaidas. Prieš įsigyjant rekomenduojame pasitikrinti aktualią informaciją.

www.shopro.lt | info@shopro.lt | +370 693 39903

Configure your ideal workspace with comprehensive port options and highly adjustable ergonomics for maximum comfort and accessibility.

- **Integrated USB-C Hub:** Convenient front-facing, pop-out USB-C port with up to 15W Power Delivery (PD) for charging small devices, alongside accessible USB Type-A ports.
- **Complete Adjustability:** Customize your viewing angle precisely using the robust stand, which offers Swivel, Pivot (rotation), Tilt, and 150 mm of Height Adjustment.
- **Productivity Software:** Utilize Dell Display and Peripheral Manager (DDPM) software, featuring Easy Arrange, to tile and manage applications across multiple screens effortlessly.

Environmentally Responsible Design

The DELL P2425D is built with sustainability in mind, featuring thoughtful material choices and adherence to global environmental standards.

- **Sustainable Materials:** Constructed using a blend of sustainable materials, including up to 85% post-consumer plastic, 100% recycled aluminum, and recycled steel/glass.
- **Certifications:** Registered EPEAT Gold with Climate+, certified ENERGY STAR®, and TCO Certified.
- **Eco-Conscious Packaging:** Ships in a box made from 100% renewable materials, minimizing plastic waste.

DELL is a global leader in computing technology, known for producing high-quality, reliable, and innovative business and consumer electronics designed to maximize efficiency and user comfort.

Order this high-performance QHD monitor today from ++SHOP++ as we offer the best prices and dedicated customer support.

Certified by TÜV Rheinland® for 4-star eye comfort, this 23.8-inch QHD monitor offers enhanced productivity with visual comfort.

Enhanced eye comfort

TÜV 4-Star certified monitor for eye comfort reduces eye fatigue while you work.

Improved ComfortView Plus

Reduced harmful blue light emissions to $\leq 35\%$, for all-day comfort without sacrificing colour.

Refresh Rate

100Hz refresh rate delivers less flicker, more seamless scrolling and smoother motion.

Vivid Colours

Wide colour coverage with up to 16.7 M displayable colours of 99% sRGB.

Clarity from any angle

With high resolution, consistent colours across wide angles, and improved contrast ratio, your work has never looked this good.

QHD resolution

2560 x 1440 resolution makes every detail stand out.

Colour consistency

Vibrant colours across wide viewing angles enabled by In-Plane Switching (IPS) technology.

1500:1 contrast ratio

For deeper blacks and brighter whites.

Configure your workspace

A wide variety of ports ensure you can connect all your accessories and create the perfect work setup to maximise your productivity.

Quick access ports

Experience the convenience of front-facing, pop-out USB-C (with up to 15W charging) and USB Type-A ports for easy connectivity. When you are done, just pop the ports back in for a clean look.

Dell Display and Peripheral Manager

Experience Dell's singular, innovative application to optimise the performance of your entire Dell PC workspace.

Maximise productivity

Easy Arrange tiles apps across screens with pre-set partitions and customises up to five windows, enhancing multitasking. Easy Arrange Memory saves and restores app profiles manually, on schedule, or at start-up.

Customise your views

Work comfortably, day or night. Automate your brightness and contrast settings to match your schedule.

More manageable

Save time and boost IT efficiency with the Dell Device Management Console to manage your Dell peripheral fleet at scale, from a single cloud-based console. Discover expanded Command Line Interface features from Dell Display and Peripheral Manager.

Environmentally-forward thinking

Material innovation

Your monitor has been thoughtfully crafted with a selection of sustainable materials including up to 85% post-consumer plastic and closed-loop ITE-derived plastic, 100% recycled aluminium, 50% recycled steel and at least 20% recycled glass that make up to 31% recycled content by weight. Using recycled materials helps conserve natural resources and contributes to a lower environmental footprint.

Environmental standards

This monitor is registered EPEAT Gold with Climate+, certified ENERGY STAR® and carries the latest TCO certified designation. With the new certification, this monitor is assured to be built using renewable energy while meeting high safety standards.

Seamlessly modernise your tech

We can help you responsibly and securely retire your legacy IT equipment, regardless of brand, while addressing your sustainability goals.

Packaging with purpose

This monitor ships in a box made from 100% renewable materials. We are reducing plastic waste wherever possible and transitioning to a responsible fiber-based solution.

- 61.0cm (24") Quad HD 2560 x 1440 Edge LED IPS
- 8ms, 16:9, 350cd/m², 1500:1
- USB, HDMI, DisplayPort

Actual configuration might differ from illustration

Product Carbon Footprint (PCF):

1. Dell generally uses the PAIA (Product Attribute to Impact Algorithm)(<http://msl.mit.edu/projects/paia/main.html>) tool for product carbon footprint calculations.
2. Docking station related PCFs are extracted from corresponding LCAs and as such do not follow the PAIA methodology used for calculating other PCFs in this report.
3. PAIA method is developed by the Massachusetts Institute of Technology's Materials Systems Laboratory and partners.
4. All estimates of carbon footprint are uncertain. Dell Technologies reports the 5th and 95th percentile of the carbon footprint estimate to reflect this uncertainty wherever possible. (<https://www.dell.com/en-us/dt/corporate/social-impact/advancing-sustainability/climate-action/product-carbon-footprints.htm#tab0=0>)
5. Please note the emission estimate in this report is calculated using the mean value along with the standard deviation for that product model.
6. Use of default inputs (i.e. not primary data) and assumptions on location of use and other fields can introduce a standard deviation which must be taken into account while completing the calculations.
7. Please note, PAIA uses the ecoinvent Database (<https://ecoinvent.org/the-ecoinvent->

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Gamintojas ir pardavėjas neatsako už galimus duomenų neatitikimus ar tipografines klaidas. Prieš įsigyjant rekomenduojame pasitikrinti aktualią informaciją.

www.shopro.lt | info@shopro.lt | +370 693 39903

database/)whenever primary data is not made available for calculations.

8. For client and commercial end user computing products, minimum configurations were assumed for calculations. For Server and Storage products, typical configurations or ENERGY STAR (<https://www.energystar.gov/products>) configurations were used for calculations.

9. Use Phase emissions were calculated based on the location of use as "Europe" i.e. the Use Phase emissions are not specific to a single country / location.

10. The report does provide an option for a total emissions number for manufacturing, transport and end of life while leaving the use phase emissions out, in case the customer uses their own calculation methodology for use phase emissions.

11. The lifetime usage assumption at the product family level is as follows: Desktop, Notebook - 4 years, Display - 5 years and Servers - 4 years.

12. For detailed assumptions please refer to the product datasheets in the Dell Technologies reports (<https://www.dell.com/en-us/dt/corporate/social-impact/advancing-sustainability/climate-action/product-carbon-footprints.htm#tab0=0>).

13. The results from the PAIA tool are liable to change over time as the methodology is improved and datasets are updated. The PAIA version used to calculate emissions has been indicated with each record in the report.

14. Metrics used: The units for global warming potential are in kgCO₂-equivalent or MT (metric ton) CO₂-equivalent (CO₂e).

15. Beginning in June 2024, the data dashboard now incorporates PCF values computed using the Dell PCF calculator. It's important to note that the default location utilized for these calculations shown on the data dashboard is Europe. To access PCF values calculated for the USA and China locales, please refer to the Product PCF PDF document on Dell.com.
