- ✓ The seat construction made of sturdy supporting straps under the thick robust foam
- ✓ Ergonomic head and lumbar cushion made of memory foam for optimal comfort
- ✓ Accessory pocket on the back of the backrest
- ✓ Equipped with mechanism with rocking function
- ✓ Height adjustment to fit every user
- ✓ Easy backrest angle adjustment
- ✓ Comfortable armrests adjustable in two directions: up/down, to the sides

Aprašymas

The Genesis Trit 660 RGB gaming chair is a unique harmony of comfort, style and durability. With a combination of ergonomics and modern additional features like RGB backlighting, it will not only provide comfort and durability, but also allow you to match the style of any gaming space.

ERGONOMICS AND COMFORT ALL DAY LONG

The chair is equipped with ergonomic headrest and lumbar cushions, made of shape-memorizing foam, which perfectly adapt to your body, providing support and comfort for hours of gaming, so you won't be doomed to fatigue and back pain even after longer sessions. In addition, the backrest and seat are widened so that the sides do not pinch your shoulders and hips, adding to the comfort.

STRONG CONSTRUCTION FOR COMPLETE DURABILITY

The foundations of the Trit 660 RGB are a sturdy metal frame for complete stability and "breathable" fabric, which, unlike cheap eco-leather, does not crack and provides thermal comfort. We also used deformation-resistant foam, which will ensure your durability for years to come. The seat was designed with stability and support in mind, so we used strong straps to support the foam.

REMOTE-CONTROLLED RGB BACKLIGHTING

The Genesis Trit 660 RGB offers more than 300 striking backlighting modes that you can customize to your preferences. Want the chair to match your green accessories at your desk? With just a few clicks, it will blend in with your surroundings. With the ability to adjust the speed and brightness of the effects, you'll create an unforgettable atmosphere in your room whether it's an RPG, RTS or your favorite multiplayer title.

ADVANCED CONTROL FUNCTIONS

Even if you're using a very unusual desk - the Trit 660 RGB will guarantee you a fully adjustable height and backrest angle, allowing you to easily adjust the chair to your height and preferences. In addition, the adjustable 2D armrests allow you to adjust their height and width, ensuring a comfortable gaming position.

MOBILITY AND FUNCTIONALITY

On the Trit 660 RGB, you'll find a pocket at the back of the backrest that hides the cables that power the backlight, plus you can easily store the powerbank, LED remote control and other accessories you need for gaming, so you can stay organized in and around your workstation. What's more, the chair is equipped with large 60mm CareGlide™ coated casters that protect your floors from scratches and allow you to move smoothly over different types of surfaces, so you don't have to worry about potential damage.
