The GIGABYTE GS25F2A gaming monitor is engineered for competitive gamers who demand lightning-fast performance without compromising visual quality. Featuring a compact 24.5-inch Full HD (1920x1080) screen, this monitor delivers incredible immersion and pixel-perfect detail, ensuring you see every crucial moment of the action.

## Extreme Gaming Performance

Achieve a critical advantage in fast-paced games thanks to the high specifications of the GS25F2A. The combination of a 240Hz refresh rate and a rapid 1ms response time virtually eliminates motion blur and ghosting, providing silky-smooth, responsive gameplay. Integration of AMD FreeSync Premium technology guarantees synchronization between your monitor's refresh rate and your GPU's frame rate, eliminating screen tearing and stuttering.

- **Ultra-Fast 240Hz Refresh Rate:** Delivers smooth, fluid motion essential for competitive titles.
- **1ms Response Time:** Ensures crisp visuals and quick input, crucial for high-speed gaming.
- **AMD FreeSync Premium:** Provides a tear-free, low-latency gaming experience across various frame rates.
- **Full HD Resolution (1920x1080):** Crisp detail on a highly competitive 24.5-inch display size.

## Vibrant Color and Eye Comfort

Beyond speed, the GS25F2A offers excellent color reproduction, featuring 120% sRGB coverage and 8-bit color depth, enhancing immersion with accurate and vibrant visuals. VESA certified Display HDR 10 readiness ensures brighter highlights and deeper blacks. Furthermore, the inclusion of Eyesafe 2.0 technology reduces harmful blue light emissions without sacrificing color quality, protecting your eyes during extended gaming sessions.

## Connectivity and Design

This monitor includes essential connectivity options such as HDMI 2.0 and DisplayPort 1.4. The sleek, matte black finish and VESA mounting capability ensure flexibility in setting up your ultimate battle station.

**GIGABYTE** is a globally recognized leader in computer hardware, known for manufacturing high-performance motherboards, graphics cards, and premium gaming peripherals and displays that push
