RayNeo Air 3S Pro AR Glasses

RayNeo Air 3s Pro are unique AR glasses for entertainment and gaming that offer a cinematic experience in an ultra-lightweight, comfortable design. With HueView™ 2.0 technology and a maximum brightness of 1,200 nits, they deliver clear images even in bright environments. The viewable 201-inch screen takes you right into the middle of the action, while advanced surround sound algorithms and Whisper Mode™ 2.0 allow you to fully immerse yourself in your favorite movies and games, distraction-free and in complete comfort. With broad compatibility and ease of connection to multiple devices, the Air 3s Pro is the perfect choice for mobile entertainment without compromise.

Impressive screen and picture quality at the highest level

The Air 3s Pro offers the highest screen brightness on the market - as much as 1,200 nits, which makes even the darkest movie scenes gain clarity. The displayed image impresses with vivid colors and deep contrast, while HueView™ 2.0 technology based on fifth-generation Micro-OLED achieves a

contrast ratio of 200,000:1 and color coverage of 98% DCI-P3 and 145% sRGB. This makes every scene look natural and detailed - whether you're watching a movie, playing a game or using an app. The 201-inch virtual screen (at a simulated distance of 6 meters) provides the sensation of having a theater with you at all times. The RayNeo Air 3s Pro gives you access to six picture modes: Standard, Game, Eye Protection, Movie, Professional and Vision Boost, allowing you to adjust the settings to suit any conditions and preferences. This allows you to enjoy high picture quality both on the go and at home.

Safe for vision and comfortable for the eyes

The glasses are equipped with OptiCare™ technology, which offers 3840 Hz dimming (PWM) and 20-level brightness adjustment. This makes for an eye-friendly image even during prolonged viewing. TÜV SÜD certifications (Low Blue Light and Flicker-Free) confirm that the Air 3s Pro meets the highest standards for eye protection, providing comfort without eye fatigue. In addition, the enlarged EyeBox, measuring 14 × 7 mm, guarantees a clear and stable image without the need for fine-tuned eye positioning, which translates into even greater comfort.

Wearing comfort and immersive sound

RayNeo Air 3s Pro are equipped with a proprietary four-speaker system and RayNeo surround sound technology to generate studio-quality sound that dynamically adapts to head movements. Whisper Mode™ 2.0 precisely directs sound waves toward the user's ears, effectively eliminating leakage and ensuring complete privacy even in crowded spaces.

All this is encapsulated in an ultra-lightweight design weighing just 76 grams - less than the average smartphone. The optimized weight distribution (46.7% on the front, 53.3% on the back) guarantees stability and no pressure on the nose, which significantly increases comfort during prolonged use. With 9-position adjustable temples and 3-position adjustable nose pads, the glasses can be precisely adjusted to fit any head shape. The EyeBox's enlarged 14×7mm space provides a clear, stable image without the need to constantly adjust the eye position.

Full compatibility - from smartphones to consoles

With DisplayPort support, the glasses can be connected directly to Android and iOS devices. With the help of optional accessories (JoyDock, HDMI Adapter, USB-C Adapter, Pocket TV), you can also connect them to consoles (Switch/Switch 2, PS4/5, Xbox), laptops and desktop computers. Plug & Play mode allows you to immediately enjoy entertainment without complicated configuration.
