The SE 4 N1 spray extraction cleaner makes light work of cleaning textile surfaces thoroughly for hygiene right down to the fibres. Ideal for families, allergy sufferers and households with pets. Deep cleaning impact combined with ergonomic design and multifunctionality: the SE 4 N1 spray extraction cleaner with its attractive pull-behind design ensures a hygienic clean right down to the fibres of many textile surfaces. Tried-and-tested spray extraction technology from Kärcher delivers the best cleaning results: fresh tap water and the Kärcher Carpet Cleaner RM 519N are sprayed deep into the textile fibres under pressure and then vacuumed back up together with the loosened dirt – ideal for families, allergy sufferers and households with pets. The device is a multifunctional 3-in-1 product, also working as a fully-fledged wet and dry vacuum cleaner. The large translucent 4-litre fresh water tank is impact-resistant and can be removed, making it is easy to fill and empty. The dirty water that is vacuumed up is collected in the container. The 3-in-1 carrying handle is designed to make carrying, opening, closing and emptying the container hassle-free. The device is easy to clean after use. The natural detergent RM 519N ensures particularly thorough cleaning results and can be used as a stain remover for stubborn dirt.

Proven Kärcher technology for optimum cleaning results

Cleaning deep into the fibres of textile surfaces. Effortless and fast cleaning with efficient spray extraction cleaning method. Low residual moisture for quick drying of textile surfaces.

Removable fresh water tank

Fresh water tank is easy to fill and empty with no need to open up the spray extraction cleaner. Impact-resistant and translucent container for a long lifespan. Fresh water tank slots into the device with ease.

Ultra-flexible 2-in-1 hose

Integrated spray hose for added convenience when cleaning. Long, highly flexible suction hose for added convenience when cleaning. Handle with lock function for continuous spraying when cleaning large textile surfaces.
