

TBOX-S2P - no cables, no complications, full control.

## **Performance you can rely on**

The Carlinkit TBOX-S2P is equipped with an advanced Qualcomm SM6115 chip and an octa-core processor that enables multi-threaded operation without any lag. Combined with 4 GB of RAM and 64 GB of internal memory, the adapter guarantees smooth operation even when using multiple applications simultaneously. In addition, you can expand the memory up to 512 GB, making the device a mobile entertainment and navigation center.

## **Complete freedom without cables**

The adapter supports three wireless modes: Android 13.0, Android Auto and Apple CarPlay, which work without connecting the phone to a cable. Thanks to a simple plug-and-play system, it takes just a few clicks to start using advanced multimedia features in the car. The pairing process with the phone is automatic when Bluetooth is turned on. It's a convenience that every driver deserves.

## **Dual Bluetooth, more possibilities**

The Carlinkit TBOX-S2P has two Bluetooth modules (5.0 and 4.2) so it can support different functions simultaneously. Bluetooth 5.0 allows you to make calls and listen to music from your phone, and also works with voice assistants, including Siri. Bluetooth 4.2, on the other hand, lets you connect a keyboard, mouse, headphones or gamepads, and even remotely control other devices such as tire pressure sensors and OBD interfaces.

## **Precise navigation**

Integrated navigation systems such as GPS, Glonass and BeiDou ensure fast and accurate positioning in all conditions. An improved three-layer mechanism enables navigation with long range and speed and low latency - ideal for both in and out of town.

## **Entertainment and functionality without limits**

With app support and free content downloads, you can enjoy your favorite streaming services, maps or utility apps directly on your car's screen. The adapter extends the functions of the original on-board system without requiring you to change your current habits - you can control the screen by touch, steering wheel buttons or dials.

## Universal compatibility and easy installation

Carlinkit TBOX-S2P is compatible with a wide range of vehicles - from Mercedes to Volkswagen to Toyota and Honda. It supports both iOS (version 10 and above) and Android (version 11.0 and above) devices, as well as iPhones 6 and above. Installation is intuitive - just plug the adapter into a USB or USB-C port, select CarPlay or Android Auto on the screen and pair the phone via Bluetooth. The adapter also has a SIM card slot (4G/3G/2G support), a TF card slot and a USB-C port for added functionality and flexibility of use. Regular online updates via FOTA ensure that the device always stays up to date with the latest updates, making it ready for any situation.
