Philips D-Line 86BDL4511D: A Reliable 24/7 UHD Commercial Display

The Philips 86BDL4511D is a robust 86-inch digital A-board designed for continuous, 24/7 operation. Featuring a 4K Ultra HD display with a resolution of 3840 x 2160 pixels and a brightness of 500 cd/m², this professional display ensures your content is always visible with exceptional clarity. Ideal for various commercial environments, it supports remote operation, monitoring, and maintenance through CMND & Control over a local LAN connection.

Features:

- **CMND & Control:** Manage your display network efficiently by controlling inputs and monitoring status remotely.
- **FailOver:** Ensures content is always playing by automatically switching between primary and secondary inputs, preventing blank screens.
- **SmartPower:** Reduces power consumption by up to 50% through adjustable backlight intensity.
- **SmartPlayer:** Play content directly from a USB drive, create playlists, and schedule content via the on-screen menu.
- **Optional OPS Slot:** Upgrade or change your hardware easily with the industry-standard Open Pluggable Specification slot for OPS-compatible media players.

With its sleek black design and versatile features, the Philips 86BDL4511D is an excellent choice for businesses needing a dependable and high-performance digital signage solution.

Philips is a global leader in technology, committed to innovation and improving people's lives through meaningful innovations in healthcare, consumer lifestyle, and lighting. Their professional displays are designed for reliability and performance in demanding commercial environments.

Order today from ++SHOP++ as we offer the best...

Operate, monitor and maintain with CMND & Control

Run your display network over a local (LAN) connection. CMND & Control allows you to perform vital functions like controlling inputs and monitoring display status. Whether you're in charge of one screen or 100.

FailOver ensures content is always playing

From waiting room to meeting room, never show a blank screen. FailOver lets your Philips Professional Display switch automatically between primary and secondary inputs ensuring content keeps playing even if the primary source goes down. Simply set a list of alternate inputs to be sure your business is always on.

SmartPower for energy saving

The backlight intensity can be controlled and pre-set by the system to reduce the power consumption by up to 50%, which saves substantially on energy costs.

Schedule what you want, when you want with SmartPlayer

Turn your USB into a true cost effective digital signage device. Simply save your content (video, audio, pictures) on your USB and plug into your display. Create your playlist and schedule your content via the on screen menu, and enjoy your own created playlists anytime, anywhere.

Optional OPS Slot

Open Pluggable Specification is an industry standard slot in to which you can add an OPS-compatible media player. This gives you the ability to upgrade or change your hardware whenever you need. Turning your display in to an all-in-one digital signage solution has become simplicity personified.
