XR VITURE Pro Glasses + VITURE One Neckband Set

Discover unlimited possibilities with VITURE Pro XR - modern XR glasses that will take your visual experience to a whole new level. The unique 135-inch Full HD screen, ultra-high refresh rate, and extraordinary brightness will allow you to immerse yourself in the world of games, movies, and work like never before. Designed for full immersion, VITURE Pro XR glasses also support 3D mode! They offer the highest image quality, eye protection with adjustable -5 diopters, and unmatched comfort with privacy protection. The set also includes a neck strap for even greater comfort during work and entertainment.

An incredible 135" 120 Hz screen with a brightness of up to 4000 nits

VITURE Pro XR offers a giant 135-inch virtual screen for perfect viewing quality for any occasion, whether you're gaming, watching your favorite movies, or working. With a 120 Hz refresh rate and 4000 nits peak brightness, you can enjoy exceptionally smooth images and excellent visibility even in bright environments. What's more, with a single click, you can switch from 2D to 3D mode if content in this format is available. Let yourself be absorbed by entertainment!

Clarity without blurred edges

Enjoy sharp and clear images from edge to edge, without blurring, thanks to UltraClarity™ technology. Now even the smallest text remains clear and legible, and your XR experience is as realistic as possible. VITURE Pro XR glasses are also equipped with anti-glare and anti-ghosting coatings that prevent motion sickness during prolonged use. Feel free to use them while traveling!

Complete privacy in any situation

Forget about unwanted glances – VITURE Pro XR are the world's first XR glasses with an electrochromic film that blocks up to 99.9% of external light, ensuring absolute privacy. With the push of a button, you can activate full darkening, eliminating the need for additional tinted lenses. No matter where you are, you can enjoy a private, immersive XR world.

Incredible sound harmony

VITURE Pro XR offers a private soundscape created with HARMAN. It provides an excellent audio experience without disturbing your surroundings. With the inverted sound field, you can fully immerse yourself in a movie, game, or presentation without worrying about the sound reaching those around you.

Highest eye protection certification

Despite its record-breaking brightness, VITURE Pro XR is designed with eye protection in mind. It is A+ certified by SGS, which means less eye strain compared to phone or computer screens. Now you can enjoy long XR sessions without worrying about your eye health. Are you nearsighted? No problem! VITURE Pro XR allows you to adjust the image up to -5.0 diopters. Use them freely!

Play and work wherever you want

VITURE Pro XR is a true entertainment and work center – perfect for both gamers and professionals. You can seamlessly switch from gaming to work, no matter where you are. Enjoy the full XR experience on any USB-C device that supports video output, including Android, iPhone 15, MacBook, and many more.

Versatile app for Multiscreen and VR

With the SpaceWalker app, you have access to multiple virtual screens, productivity tools, and 3D/VR video support. This feature is available on iPhone, Android, and macOS, with Windows support coming soon. SpaceWalker offers a complete XR experience, from multiscreen to spatial video on iPhone 15 Pro, creating a complete XR ecosystem on every device.

Durable metal body construction

Every detail of the VITURE Pro XR attests to its incredible quality and durability. Made from aircraft-grade aluminum and equipped with titanium hinges, it is extremely resistant to damage and designed to last for years. It was created for users who expect both functionality and durability.

Neckband to complete the set

The package also includes the VITURE One neckband. It unlocks the full potential of the glasses, allowing you to enjoy smooth gameplay, access to apps, and flexible screen configuration—no matter where you are. Hanging comfortably around your neck, the strap acts as a portable computer, powering the XR glasses and providing access to many features, such as remote gaming on a huge screen, as well as screen adjustment and touch control. It's an advanced solution that will change your approach to entertainment and productivity.

Included

- VR glasses
- neckband
- USB-C cable
