It supports video resolutions up to 7680x4320@60Hz and 3840x2160@144Hz, making it the ideal tool for 8K game streaming or high resolution 8K video editing. Additional support for High Dynamic Range ensures video content can be seen with enhanced brightness, superior contrasts and a much wider colour gamut for more lifelike colour. These cables are great for creating eye-catching retail displays, innovative working environments or immersive video playback in sports bars and home cinema installations, while support for uncompressed multi-channel audio allows for an impressive three-dimensional surround sound performance to compliment detailed, clear video.

This cable is powered by the USB Bus, so no external power supply is needed and with 'Plug and Play' installation, this converter cable can be installed into an AV system with minimum difficulty, ideal for both professional and first time users.
