GEEKOM A7 Mini PC AMD Ryzen™ 5 7535HS 16GB 512GB + Win 11 Pro

The GEEKOM A7 is a mini PC designed for office work, multimedia tasks, and everyday use. Equipped with an AMD Ryzen 5 7535HS processor, 16GB of DDR5 RAM, and a fast PCIe 4.0 NVMe SSD, it offers high performance. The device comes with Windows 11 Pro pre-installed and is ready to use right out of the box.

AMD Ryzen 5 7535HS processor

At the heart of the A7 is an 8-core, 16-thread AMD Ryzen 5 7535HS processor with a maximum TDP of 45 W. The chip is based on the Zen 4 architecture and is manufactured using a 4 nm process. It is a unit that works well in typical office applications, browsing the Internet, working with documents,

simple video editing, etc.

Graphics chip

The GEEKOM A7 uses a Radeon 780M chip based on the RDNA3 architecture. The GPU has 12 CU units clocked at up to 2700 MHz, making it the fastest integrated graphics chip in its class. Support for DirectX 12 Ultimate, hardware ray tracing, and Variable Rate Shading allows you to run modern AAA games.

Multimedia performance

The integrated graphics chip supports hardware encoding and decoding of popular video formats, including AV1 (up to 8K/60 fps), H.265 (8K/43 fps), and H.264 (4K/175 fps). This makes the device well suited for working with video and audio material, including high-resolution content.

Operating memory and data storage

The A7 is equipped with 16 GB of DDR5 RAM. Data is stored on a 512 GB M.2 2280 PCIe 4.0 x4 NVMe SSD. This configuration ensures high throughput for both applications and large file operations.

Multi-display support and 8K

With two HDMI 2.0 ports, a USB4 connector, and USB-C, the GEEKOM A7 can support up to four 4K monitors or one 8K monitor. The ability to work on multiple screens makes the computer well-suited for office, design, and entertainment applications.

Connectors and ports - extensive connectivity

The device offers a wide range of ports: three USB-A 3.2 Gen 2 ports, one USB-A 2.0, one USB4 connector, a full-function USB-C, and an SDXC card reader. The USB4 connector allows you to connect external graphics cards (eGPU) or very fast external drives, offering bandwidth of up to 40 Gb/s.

Fast network connectivity

The GEEKOM A7 is equipped with a 2.5 Gb Ethernet network card and a WiFi 6E module. Both standards guarantee a stable network connection – both wired and wireless – with sufficient bandwidth for 8K video transmission, online gaming, and real-time work in virtual environments.

Effective cooling

Inside the case is a cooling system based on heat pipes and a large, low-noise fan. GEEKOM has optimized the CPU configuration for 45W TDP operation, achieving the best balance between performance, stability, and operating temperatures.

Ready to run with different systems

The GEEKOM A7 comes with Windows 11 Pro pre-installed. The computer also supports other x86-compatible operating systems, including popular Linux distributions (Manjaro, Ubuntu) and Android x86. This gives the user flexibility in choosing their working environment.

Manufacturer	Geekom
Model	A7
Processor	AMD Ryzen 5 7535HS
Cores/threads	8/16
Processor TDP	45 W
Architecture	Zen 4
Graphics chip	Radeon 780M
GPU architecture	RDNA3
Compute units	12 CU
GPU clock speed	up to 2700 MHz
RAM	16 GB DDR5
RAM clock speed	5600 MHz
RAM mode	dual channel

Drive 512 GB SSD
