GMKtec G3 PLUS - Intel N150 MINI-PC 16/512

The GMKtec G3 PLUS is a compact computer that fits easily on any desk. Equipped with a powerful Intel N150 processor, up to 32 GB of RAM, and a fast M.2 SSD, it is ideal for both office and home use. It also offers various ports for connecting peripheral devices and wireless Wi-Fi and Bluetooth 5.2 connectivity. All this is enclosed in a small 114 × 106 × 42.5 mm design weighing 266 g.

Powerful Intel N150 processor

At the heart of the device is an Intel Alder Lake N150 processor, equipped with 4 cores and 4 threads and a clock speed of up to 3.4 GHz. It offers significantly better performance compared to earlier models – such as the N100 or N5095 – in both single- and multi-threaded tasks. Thanks to 6 MB of

cache memory and low power consumption (TDP 15W), the computer runs fast and energy-efficiently.

Expandable memory

The G3 Plus model offers 16 GB of DDR4 3200 MHz memory, which ensures stable and smooth system operation right from the start. There is also the option to expand the RAM to 32 GB, which will allow for even faster operation of multiple applications simultaneously and better performance of programs that require more resources.

Capacitive and fast mass storage

The computer comes standard with a fast M.2 2280 SSD, with the possibility of expanding it to 4 TB. Additionally, a second M.2 2242 SATA slot (up to 2 TB) is available, allowing you to easily add a second drive without having to replace the current one. This gives you full control over your data space and allows you to tailor the computer to your needs.

Dual 4K screen - more space for work and entertainment

With the Mini PC, you can connect two 4K@60Hz monitors via HDMI 2.0 connectors. This configuration allows for convenient multitasking, better application management, and smooth playback of high-definition content. It is a good solution for both business and home users.

Fast connection

With Wi-Fi 6 support, the computer provides a fast and stable wireless network connection, while Bluetooth 5.2 enables seamless pairing with peripherals such as headphones, keyboards, and printers. An RJ45 Ethernet port with a bandwidth of up to 2500 Mbps is also available, providing a reliable wired connection, useful for example in the office or when working remotely.

Built-in ports

The G3 Plus is equipped with 4 USB 3.2 ports and a 3.5 mm audio input. This combination allows you to connect most of the necessary accessories and external devices without the need for additional

adapters.

Quiet and efficient cooling

A cooling system with a fan and ventilation holes, supported by copper heat pipes, ensures stable operating temperatures. This allows the device to run stably even under heavy load, while remaining quiet and not interfering with work or movie viewing.

Windows 11 Pro and Linux support

The computer runs on Windows 11 Pro. In addition, the device also supports Windows 10 and Linux, giving advanced users and developers more freedom.

In the box

- mini PC
- power supply and power cable
- HDMI cable
- VESA mount and screws
- user manual

Manufacturer	GMKtec
Model	G3 Plus
Dimensions	114 x 106 x 42.5 mm
Housing material	plastic
Weight	266 g
Processor	Intel N150
Max. clock speed	3.6 GHz
Power consumption	15 W
RAM	DDR4 3200 MHz
RAM capacity	16GB
