## Intel Core i7-12700K 3.60 GHz Desktop Processor (Alder Lake)

Step into the next generation of computing power with the Intel Core i7-12700K processor. Built on the innovative Alder Lake architecture and utilizing the new LGA 1700 socket, this CPU delivers exceptional performance for serious gamers, demanding creators, and multi-tasking professionals.

The i7-12700K introduces Intel's groundbreaking hybrid design, combining Performance-cores (P-cores) and Efficient-cores (E-cores) to optimize workload distribution. With a formidable 3.60 GHz base clock speed and unlocked multiplier ('K' series), this processor provides the raw power and

flexibility needed for high-end systems.

## Key Performance Features:

- **Hybrid Architecture:** Features a mix of powerful P-cores and efficient E-cores for scalable performance and optimized power usage across heavy and light tasks.
- **LGA 1700 Socket Compatibility:** Designed for the latest motherboards, supporting advanced connectivity standards like PCIe 5.0 and DDR5 memory (support depends on motherboard).
- **Unmatched Speed:** Delivers high clock speeds suitable for competitive gaming and intensive applications like 3D rendering and video editing.
- **Overclocking Capability:** The unlocked multiplier allows advanced users to push performance limits for maximum processing power.
- **Intel Smart Cache:** Large cache size ensures rapid access to frequently used data, significantly boosting responsiveness.

Whether you are building a cutting-edge gaming rig or a professional workstation, the Intel Core i7-12700K provides the necessary foundation for extreme speed and efficiency.

**INTEL** is a global leader in processor and chipset technology, consistently driving innovation in PC performance and connectivity. Known for pioneering microprocessors, Intel sets the standard for computing hardware worldwide.
