The Seagate SkyHawk AI ST16000VE005 is designed for demanding environments, offering a substantial 16 TB capacity to meet the needs of large-scale data storage. This internal hard drive features a robust helium-sealed design that enhances reliability while providing efficient performance. With a data transfer rate of 240 GBps and an internal data rate of 229 MBps, it ensures quick access to stored data, suitable for surveillance and AI applications. The RV sensor and rotation vibration sensor work together to maintain data integrity under challenging conditions, making it suitable for continuous recording. Coupled with ImagePerfect firmware, this drive enables smooth video playback and recording without interruptions, helping to manage large data loads while providing peace of mind with a bundled 3-year Seagate Rescue Data Recovery service.
