Experience noticeably smoother on-screen motion thanks to the 120Hz refresh rate, providing an upgrade over standard 60Hz displays. Coupled with the vibrant colors and wide 178° viewing angles of the IPS panel, the 27E4CV ensures visual clarity from nearly any perspective. Furthermore, integration of Adaptive Sync technology eliminates screen tearing and stuttering, guaranteeing fluid performance, even during dynamic content viewing.

Advanced Connectivity and Ergonomics

Simplify your setup with the powerful built-in USB-C docking station. This single-cable solution allows you to transmit video, data, and simultaneously charge your connected laptop or device with up to 90W Power Delivery (PD). This turns your monitor into a central hub, reducing cable clutter and boosting productivity. Additionally, the 27E4CV features DisplayPort Out (for daisy-chaining multiple monitors), HDMI 1.4, and a built-in USB hub (3.2 Gen 1) for comprehensive connectivity options.

Eye Comfort Technology

Designed for extended use, the 27E4CV prioritizes user comfort. It utilizes Hardware Anti-Blue Light technology, which reduces harmful blue light emissions without compromising color accuracy, ensuring eye-friendly visuals throughout the workday. The adjustable stand allows for height customization, along with VESA mounting support, helping you achieve the perfect ergonomic setup.
