

## BOBOVR B100 battery for S3 PRO/E3 PRO

Modelis: B100

Gamintojas: BOBOVR

EAN: 6937267000402

Prekės kodas: 380654

# 65.99€

### BOBOVR B100 Battery Pack for S3 PRO/E3 PRO

The BOBOVR B100 battery pack is a state-of-the-art solution for users of the S3 PRO and E3 PRO series VR headsets, offering significantly higher capacity and performance. With a capacity of 10,000 mAh, the B100 increases the operating time of the goggles by 135%, allowing for much longer sessions without interruptions. This is ideal for those who don't want battery limitations to interrupt their immersive experience.

### Advanced cell technology and BMS

The BOBOVR B100 uses high-performance 3.65V lithium-ion cells, consisting of two independent 5000 mAh batteries connected in series. A built-in battery management system (BMS) from Texas Instruments guarantees precise monitoring of the charge level, relaying accurate data on the battery's status. With four LEDs on the case, the user can quickly check the current charge level.

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. ## Fast charging and extended life

The B100 battery supports fast charging with up to 20 watts of power, and can be charged to 80% in just one hour when combined with the optional BD3 station. Standard USB-C charging takes about 4 hours, which is due to nearly double the capacity compared to the previous B2 model.

## Safety and smart temperature control

The B100 battery is equipped with numerous temperature sensors and safety features that protect against overheating, overcharging and short circuits. Intelligent real-time temperature monitoring significantly reduces the heat generated during operation, enhancing the safety and durability of the product.

## Compact design with increased capacity

Despite a significant increase in capacity - by 92% compared to the B2 battery - the size of the B100 battery has remained unchanged, and its weight has increased by only 28% to 184 g. As a result, the battery maintains an ideal balance between performance and comfort.

## Full compatibility and flexibility

The B100 battery is compatible with the S3 PRO and E3 PRO series. For users of the M1, M2 Plus, M3 Pro and M3 Mini series, the B100U upgrade kit is required. With the magnetic mounting system, battery replacement is quick and intuitive, eliminating downtime during gameplay.

## Stable connection and reliability

Magnetic attraction technology guarantees a stable connection between the battery pack and the VR headset, even during dynamic movements. This allows the user to fully focus on the gameplay without worrying about power interruption.

## Included

- B100 battery pack
- Charging cable
