This console uses a state-of-the-art AMD Ryzen AI 9 HX 370 processor with 12 cores and 24 threads, complemented by an AMD Radeon 890M graphics card based on RDNA 3.5 architecture. Radeon Super Resolution (RSR) improves image quality, while FidelityFX Super Resolution (FSR) increases frame rates. This combination ensures smooth performance, even in the most demanding games.

## Immersive Display

The Onexfly F1 Pro features a 7-inch OLED screen with a 1920x1080 resolution and a 144 Hz refresh rate. With a brightness of up to 760 nits and a high contrast ratio of 100,000:1, it provides excellent visibility in various lighting conditions. A 0.6 ms response time ensures an unforgettable gaming experience, and 152% sRGB gamut coverage guarantees crisp, vivid colors.

## Memory and Storage

It comes equipped with 32GB of LPDDR5X RAM clocked at 7,500 MHz and a 1TB NVMe M.2 PCIe 4.0 SSD, guaranteeing fast loading times for games and applications. The advanced cooling system, featuring a 4700 rpm fan, aluminum heat dissipation, and three heat pipes effectively prevents overheating while operating quietly. The ergonomic design ensures the handles remain cool during intense gaming sessions.

## Battery and Charging

A 12600 mAh (48.5 Wh) battery provides up to 2 hours of intense gameplay in high-performance mode. Fast charging allows you to charge the device to 50% in just about 30 minutes, getting you back into the game quickly.

## Ergonomics and Controls

Designed for maximum gaming comfort, the Onexfly F1 Pro fits well in your hands with an intuitive layout. It includes two precision sticks, a crossbar, ABXY buttons, triggers, and bumpers. The Turbo button, keyboard shortcuts, and mouse/keyboard mode enhance control. Colorful RGB backlighting and asymmetrical motors provide immersive feedback. Weighing only 599 g, it minimizes fatigue during long gaming sessions. Certain buttons are also customizable.

## OneXConsole Software

---

OneXConsole software gives you full control over your device, allowing you to create a personalized game library with custom covers and backgrounds. Adjust CPU power, resolution, fan speed, and cooling curves. You can also quickly access menus and sync game records in the cloud.

## Connectivity

The console features two USB-C 4.0 ports, a USB-A 3.0 port, a 3.5mm audio port, and a Micro SD 4.0 slot for expanding storage with up to a 2 TB TF memory card.

## Audio

Two built-in Stereo 2.0 speakers tuned by Harman AudioEFX 2.0 specialists provide clear sound for immersive gaming, movies, and music. Pre-installed Windows 11 ensures compatibility with most AAA games.

**ONEXPLAYER** is known for its quality gaming console and accessories that provide best experience for gamers.

## Onexfly F1 Pro portable console AMD AI370 32GB RAM 1TB

The Onexfly F1 Pro is not just a console - it's a powerful entertainment center. Powered by AMD Ryzen AI 9 HX 370 processor with Radeon 890M graphics - it offers incredible smoothness of operation. With 32GB of high-speed LPDDR5X (Low Power Double Data Rate 5X, energy-efficient high-bandwidth RAM) memory and a 1TB NVMe (Non-Volatile Memory Express, a high-speed storage communication protocol) SSD (Solid State Drive), you can count on lightning-fast loading of games, apps and system. What's more, the 7-inch OLED (Organic Light-Emitting Diode) screen with 144Hz refresh rate provides fantastic image quality and makes every gameplay experience even more enjoyable.

## Power that won't let you down

---

Gamintojas ir pardavėjas neatsako už galimus duomenų neatitikimus ar tipografines klaidas. Prieš įsigyjant rekomenduojame pasitikrinti aktualią informaciją.

[www.shopro.lt](http://www.shopro.lt) | [info@shopro.lt](mailto:info@shopro.lt) | +370 693 39903

The Onexfly F1 Pro console uses a state-of-the-art AMD Ryzen AI 9 HX 370 processor with 12 cores and 24 threads. On top of that, there's an AMD Radeon 890M graphics card based on RDNA (Radeon DNA, AMD's graphics architecture) 3.5. In addition, RSR (Radeon Super Resolution, an image scaling technology) provides higher image quality, and FSR (FidelityFX Super Resolution, a frame-enhancing technology) increases frame rates. All this translates into smooth performance even in the most demanding games!

## **A screen made for gamers**

The Onexfly F1 Pro is equipped with a 7-inch OLED screen with a resolution of 1920x1080 with a refresh rate of 144 Hz. It is also distinguished by a brightness of up to 760 nits and a high contrast ratio of 100,000:1. So you can easily play in almost any conditions - both indoors and outdoors when the sun is shining. In addition, a response time of 0.6 ms ensures an unforgettable gaming experience, and coverage of the sRGB (Standard Red Green Blue, a color space standard) gamut of up to 152% guarantees crisp, vivid colors.

## **Impressive memory and super-fast drive**

As standard, you get as much as 32GB of LPDDR5X RAM (Random Access Memory) clocked at 7,500 MHz and a 1TB NVMe M.2 PCIe (Peripheral Component Interconnect Express, a high-speed communication interface) 4.0 SSD. This configuration guarantees lightning-fast loading of games, system and applications - without stutters or downtime. Demanding AAA titles? No problem! However, performance isn't everything - stability also counts. The console is equipped with an advanced cooling system with a 4700 rpm fan, aluminum heat dissipation elements and three heat pipes. The whole system effectively prevents the device from overheating, while working surprisingly quietly. What's more, thanks to its well-thought-out design, the Onexfly F1 Pro's handles will not get hot. So you can freely play even the most demanding games!

## **Powerful battery and fast charging - play without limits**

The console is equipped with a powerful 12600 mAh (48.5 Wh) battery, which provides up to 2 hours of intense gameplay in high performance mode (with 15 W consumption). And when the energy starts to run out, fast charging comes to the rescue - it only takes about 30 minutes to charge the device to 50%. That way you can get back in the game quickly!

[www.shopro.lt](http://www.shopro.lt) | [info@shopro.lt](mailto:info@shopro.lt) | +370 693 39903

## **Ergonomic design and rich set of buttons**

The Onexfly F1 Pro is designed for maximum gaming comfort - the device fits well in the hands, and the well-thought-out layout allows intuitive operation. At the user's disposal are two precision sticks, a crossbar and a set of ABXY buttons. On the top edge you will find classic triggers and bumpers. There is also a Turbo button, keyboard shortcuts and mouse and keyboard mode. The whole is complemented by colorful RGB backlighting (Red Green Blue, a color system based on three colors). In addition, asymmetrical motors generate clearly perceptible vibrations, which increase the level of realism during gameplay. At the same time, the console is very light - it weighs only about 599 g. Don't be afraid of fatigue after a long time of playing! Some buttons also allow you to assign selected functions.

## **Even more possibilities with OneXConsole software**

OneXConsole software gives you full control over your device and gameplay. It allows you to create a personalized library of games with your own covers and backgrounds, which you can access right from the start. You can also conveniently modify the device's operating parameters - from CPU (Central Processing Unit) power, to resolution, to fan speed with the ability to define custom cooling curves. There's also the option of quick one-click menu invocation or syncing game records in the cloud.

## **Multiple available ports and memory expandability**

The console is equipped with two USB-C (Universal Serial Bus Type-C, a universal C standard data and power connector) 4.0 ports, which offer high transfer speeds and allow you to connect 4K monitors, among other things. There's also a USB-A 3.0 port and a 3.5mm audio port. Need more space for your games? Take advantage of the available Micro SD (Secure Digital, a memory card standard) 4.0 slot and insert a TF (TransFlash, another name for MicroSD card) memory card with a maximum capacity of 2 TB into the console.

## **Great sound with Harman certification**

Two built-in Stereo 2.0 speakers provide amazingly clear sound - so you can become even more immersed in the gameplay. The entire system has been tuned by Harman AudioEFX 2.0 specialists,
