HOTWAV Hyper 7 Pro Smartphone (Black)

The HOTWAV Hyper 7 Pro 5G is an exceptionally durable smartphone, setting new standards for toughness while delivering powerful performance through its 200 MP camera system. It features an octa-core MediaTek Dimensity 7050 (2.6 GHz) processor, built with 6 nm technology, coupled with 36 GB of RAM and a fast 256 GB storage capacity.

Stylish Finish

The smartphone's rear panel is made with innovative black PU leather, providing a distinctive texture and secure grip. This material offers an attractive look and increased resistance to daily wear and tear. PU leather is resistant to stains and easy to clean, maintaining the phone's aesthetic appeal even after extensive use.

Military-Grade Durability and Robust Construction

This rugged smartphone meets IP68, IP69K, and MIL-STD-810H military standards, ensuring resistance to water, dust, high-pressure washing, high temperatures, and extreme shocks. Its design includes thickened rubber corners and a screw-mounted aluminum alloy side frame. Additional features like a sealed charging port cover and a lanyard holder enhance functionality and safety in challenging outdoor environments.

A Reliable Light Source for Expeditions

The built-in Hyper LED Camping Light provides an impressive 280 lumens of brightness, using 510 LEDs with a total power of 6 W. Users can select from constant light modes at varying intensities and flashing modes, including SOS and Super. It also includes a timer for automatic shutdown after 5, 10, 15, 30, or 60 minutes.

Next-Generation Power

Powered by a MediaTek Dimensity 7050 5G processor with eight cores and a clock speed up to 2.6 GHz, manufactured with TSMC's efficient 6 nm process, the smartphone utilizes fast LPDDR5 RAM and UFS 3.1 storage. This combination ensures smooth system and application performance. Hyper Engine 3.0 technology optimizes performance during gaming and intensive tasks.

Advanced 5G Connectivity

The Hyper 7 Pro supports the latest 5G Carrier Aggregation 2CC-CA technology, combining FDD and TDD bands to increase bandwidth by up to 30%. The integrated MediaTek 5G UltraSave modem lowers power consumption on 5G networks. It also supports Dual 5G SIM in SA+SA mode and VoNR voice and video calls, providing stable and fast communication.

A Multimedia Duo for Work and Entertainment

The 6.6-inch main display with 2.4K high resolution provides a crystal-clear image and excellent visibility, even in direct sunlight, with a brightness of 520 nits. The 120 Hz refresh rate ensures smooth animations and interface fluidity. The 1.45-inch secondary screen on the rear offers instant access to key notifications without unlocking the phone.

200 MP Hyper Photography Camera System

Equipped with a 200 MP Ultra Clear Pixel camera, the Super-Pixel mode offers unparalleled sharpness and precision in capturing the finest image details. PixSmart AI-Boost Night Mode technology improves low-light photography, and a dedicated 24 MP night camera captures additional details in dark conditions. The 32 MP HD front camera guarantees excellent selfies and smooth video calls.

Fast Charging and Stable System Performance

The 10,800 mAh battery ensures long-lasting performance for both smartphone use and flashlight operation during extended trips. With 33 W fast charging support, the battery can be quickly and efficiently recharged. Running on Android 14, users have access to the latest features and enhanced security.

Included

- Smartphone
- 33 W mains charger
- USB-C cable
- OTG cable
- User manual
- Warranty card

HOTWAV is a company known for producing durable and innovative smartphones designed for demanding users and harsh environments. Their products combine robustness with advanced technology, offering reliable performance and unique features.

The HOTWAV Hyper 7 Pro 5G is a highly durable smartphone that redefines the standards of durability, combining a powerful 200 MP camera system with uncompromising performance. The device is powered by an octa-core MediaTek Dimensity 7050 (2.6 GHz) processor manufactured using 6 nm lithography, supported by an impressive 36 GB of RAM and fast 256 GB storage.

Stylish finish

The rear panel of the device is covered with innovative PU leather in a uniform black color and distinct texture, which ensures a secure grip and exceptional resistance to everyday use. This material not only provides an attractive appearance, but also increased resistance to wear and tear during intensive use. PU leather is less susceptible to stains and dirt, and cleaning it is quick and easy, which translates into an aesthetic appearance of the phone even after long-term use.

Military-grade durability and robust construction

The smartphone meets the stringent IP68, IP69K, and MIL-STD-810H military standards, confirming its resistance to water, dust, high-pressure washing, high temperatures, and extreme shocks and impacts. The construction is reinforced with thickened rubber corners and a screw-mounted aluminum alloy side frame. Additional features, such as a sealed charging port cover and a lanyard holder, increase functionality and safety in harsh outdoor conditions.

A reliable light source for expeditions

A unique feature of the housing is the built-in Hyper LED Camping Light with an impressive brightness of 280 lumens, powered by a system of 510 LEDs with a total power of 6 W. The user can choose from constant light modes with different power levels and flashing modes, including SOS and Super. Additionally, there is a timer function with automatic shutdown after 5, 10, 15, 30, or 60 minutes.

Next-generation power

At the heart of the device is a MediaTek Dimensity 7050 5G processor with eight cores and a clock speed of up to 2.6 GHz, manufactured using TSMC's energy-efficient 6 nm process technology. The smartphone uses fast LPDDR5 RAM and UFS 3.1 storage, which translates into smooth system and

application performance. Thanks to Hyper Engine 3.0 technology, the Hyper 7 Pro offers better performance optimization during gaming and intensive use.

Advanced 5G connectivity

The Hyper 7 Pro supports the latest 5G Carrier Aggregation 2CC-CA technology, which allows FDD and TDD bands to be combined, increasing bandwidth by up to 30%. The integrated MediaTek 5G UltraSave modem ensures lower power consumption when using 5G networks. The smartphone also offers Dual 5G SIM support in SA+SA mode and support for VoNR voice and video calls, ensuring stable and fast communication.

A multimedia duo for work and entertainment

The 6.6-inch main display with a high resolution of 2.4K guarantees a crystal-clear image and excellent readability even in full sunlight thanks to a brightness of 520 nits. The 120 Hz refresh rate ensures flawless animation and interface smoothness. An innovative addition is the 1.45-inch secondary screen on the rear panel, which allows you to instantly view key notifications without having to unlock your phone.

200 MP Hyper Photography camera system

The smartphone has a 200 MP Ultra Clear Pixel camera, whose Super-Pixel mode provides unparalleled sharpness and precision in reproducing the smallest details of the image. PixSmart AI-Boost Night Mode technology improves the quality of night photos, and a dedicated 24 MP night camera allows you to capture more details in low light. The front of the device features a 32 MP HD camera, which guarantees excellent quality selfies and smooth video calls.

Fast charging and stable system performance

The whole thing is powered by a 10,800 mAh battery, which ensures long-lasting operation of the smartphone and flashlight during multi-day trips, and thanks to 33 W fast charging support, it allows for efficient energy replenishment. The device runs on Android 14, which provides users with access to the latest features and a higher level of security.
