

Processor Intel Core i5-14600KF 3.5 GHz (Raptor Lake Refresh) LGA 1700 - Boxed

Modelis: BX8071514600KF

Gamintojas: INTEL

EAN: 5032037278461

Prekės kodas: 382838

280.99€

Intel Core i5-14600KF Processor: Unleashed Performance for Gaming and Productivity

Step up your computing experience with the powerful Intel Core i5-14600KF processor, built on the cutting-edge Raptor Lake Refresh architecture (14th Gen). Designed for serious gamers, demanding content creators, and multi-tasking professionals, the i5-14600KF offers a stellar combination of speed and efficiency.

Leveraging Intel's innovative hybrid architecture, this CPU combines high-performing Performance-cores (P-cores) with efficient Efficiency-cores (E-cores), dynamically allocating tasks to maximize system responsiveness and power efficiency. With a robust 3.5 GHz base frequency, this CPU ensures ultra-smooth frame rates and rapid application loading times, making it an excellent foundation for any high-performance PC build.

Optimized for Overclocking and High-End Builds

The 'KF' designation signifies two major advantages: the processor is unlocked (K), allowing enthusiasts to push performance limits through manual overclocking, and it lacks integrated graphics (F), making it an ideal choice for systems already equipped with a dedicated high-performance GPU. This focus ensures maximum budget allocation towards raw processing power and graphics capabilities.

- **14th Generation Raptor Lake Refresh:** Enhanced architecture providing substantial generational performance gains.
- **Unlocked 'K' Multiplier:** Provides full control for advanced users looking to maximize clock speeds via overclocking.
- **LGA 1700 Socket Compatibility:** Ready for the latest generation motherboards, providing access to PCIe 5.0 and DDR5 memory standards.
- **Hybrid Core Design:** Intelligent workload management combining P-cores for demanding tasks and E-cores for background efficiency.
- **High Base Frequency:** Runs at a powerful 3.5 GHz base clock, ensuring rapid responsiveness right out of the box.

INTEL is a globally recognized leader in semiconductor technology, constantly innovating to deliver processors that drive the world's most advanced computing platforms, from data centers to high-performance gaming desktops.

Order today from ++SHOP++ as we offer the best competitive pricing and rapid shipping on the newest generation of Intel desktop CPUs.
