ASUS ProArt PA27JCV 5K Monitor: Redefining Professional Visuals

The ProArt Display PA27JCV is a premium 27-inch 5K HDR monitor engineered specifically for the demands of professional content creators, graphic designers, and videographers. Featuring a stunning 5120 x 2880 resolution on an advanced IPS panel, this display ensures exceptional detail and clarity, allowing you to view and edit high-resolution projects without compromise.

Unmatched Color Accuracy and Wide Gamut

Achieve true-to-life color reproduction crucial for high-stakes professional work. The PA27JCV is Calman Verified and factory calibrated to ensure industry-leading color fidelity with a remarkably low Delta E 2. It boasts extensive color space coverage, including 99% DCI-P3, 100% sRGB, and 95% Adobe RGB, providing confidence that your work appears exactly as intended across all mediums. Furthermore, ambient light and backlight sensors automatically adjust the visual settings via the LuxPixel AGLR and Light Sync technologies, optimizing brightness and color temperature based on your environment.

Productivity and Seamless Integration

Boost your workflow efficiency with intelligent features designed for multi-device setups. The built-in Auto KVM (Keyboard, Video, Mouse) function allows you to effortlessly control two connected laptops or PCs using a single keyboard and mouse, streamlining your workstation. Connectivity is simplified through a powerful USB-C port, which supports DisplayPort™ functionality and provides high-speed data transfers alongside 96 watts of power delivery (PD)—all through one single cable.
