The GIGABYTE AORUS ELITE AE1000PM PG5 power supply offers a reliable solution for powering high-performance systems. With a robust power output of 1000 W, it provides sufficient energy to drive demanding components efficiently. The fully modular design promotes easy cable management, allowing for a clean and organized build, while various detachable cable options enhance customization to meet specific needs. Equipped with a 120 mm fluid dynamic bearing cooling fan, the power supply ensures optimal thermal performance during operation, enabling a Zero RPM fan mode for silent use at lower loads.

Safety and reliability are paramount, with features like overheat protection, overcurrent protection, and short-circuit protection integrated into the design. Compliant with several standards, including ATX12V 3.0 and EPS12V, the unit delivers stable performance across various applications. The power supply is also 80 PLUS Platinum certified, ensuring high energy efficiency at 92%, which translates to lower electricity bills and reduced environmental impact. This model is tailored for gamers and
