EAN: 6972410025796

Prekės kodas: 383241

## 499.98€

### Peladn WI-6 N95 16+512GB Mini PC

The Peladn WI-6 N95 Mini PC is a compact desktop computer that combines an advanced Intel N95 processor, energy-efficient operation, and full readiness for everyday office and multimedia tasks. It offers smooth application performance, support for 4K images on multiple screens, a fast SSD drive, and large RAM, all in a small VESA-mountable case. Quiet operation and a rich set of connectors make it a versatile solution for home, office, and remote work.

### Performance and energy efficiency

At the heart of the device is a quad-core, quad-thread Intel N95 processor from the Alder Lake-N family, which achieves a turbo frequency of up to 3.4 GHz. Low power consumption, at only 6 W TDP, translates into quiet operation and minimal power consumption, without compromising on everyday performance. Thanks to its intelligent cache and thoughtful architecture, the computer excels at multitasking and smooth operation of office applications and programs such as Microsoft Office and

Adobe software.

## **4K home media center**

The computer is ideal for use as home theater equipment. Support for hardware AV1 decoding, as well as 10-bit HEVC and VP9 formats, allows for the playback of larger video files with minimal system load. The device supports resolutions up to 4K at 60 frames per second and allows you to work on three screens simultaneously, making it an excellent choice for multimedia, creative work, and complex workstations.

## **Smooth performance and multitasking readiness**

With 16 GB of RAM and a fast 512 GB SSD, the system is responsive and applications launch instantly. Working on multiple documents simultaneously, editing graphics, or using multiple monitors is no problem. This computer is designed for anyone who values comfort and stability regardless of the intensity of their work.

## **Minimalist design and intelligent cooling**

With a volume of 0.5 liters and a weight of 0.27 kg, the Peladn WI-6 fits virtually anywhere – on a desk, in a TV cabinet, or mounted on the back of a monitor using the included VESA mount. The robust HardCore 1.0 design, combined with an efficient and quiet cooling system, ensures stable operation even under load, without annoying noise.

## **A full set of connectors in a compact case**

Despite its small size, the mini PC offers a rich set of ports. The front panel features an audio jack for headphones and microphone, a USB-C connector, two USB 3.0 ports, and a convenient power button. The rear of the case hides two DisplayPort outputs for connecting 4K monitors, two USB 2.0 ports for accessories, an RJ45 LAN network connector, and a DC power port. This configuration allows you to easily connect all the necessary peripherals.

## **Included in the set**
