Constructed from robust Steel and Aluminium components, and upholstered in durable EPU Synthetic Leather, this chair offers both longevity and a premium feel. The striking Black/Green color scheme is instantly recognizable as signature Razer style.

Unmatched Ergonomics and Durability

The core philosophy behind the Enki is supporting the natural curve of your back and optimizing pressure distribution. This chair features an integrated lumbar arch that gently supports your lower spine, promoting a healthy posture without the need for intrusive external adjustments.

Density is key to comfort. The Enki features optimized upholstery density, providing softer padding on the seat base for plush support and firmer padding on the backrest for reliable, structural support. This balance prevents sinking while ensuring sustained comfort.

Key Features:

- **Ergonomic Design:** Specifically designed for all-day comfort, reducing physical strain during extended use.
- **Integrated Lumbar Arch:** Provides continuous support to the lower back for improved posture.
- **Premium Materials:** Constructed using high-strength Steel and Aluminium frames, covered in high-quality EPU Synthetic Leather.
- **Memory Foam Pillow:** Includes a plush memory foam pillow for enhanced neck and head support.
- **Adjustable Arms:** Allows customization of armrest height and angle to suit your specific setup.
- **High Capacity:** Supports users up to 136 kg.

RAZER is globally recognized as the leading lifestyle brand for gamers, known for creating high-performance hardware, software, and systems that define the competitive edge in esports. Their products are synonymous with quality, precision, and cutting-edge design.
