AMD Ryzen 7 9700X Desktop Processor - Zen 5

Performance

The AMD Ryzen 7 9700X processor, featuring the cutting-edge "Zen 5" architecture (Granite Ridge), sets a new benchmark for high-performance desktop computing, especially tailored for demanding gaming and creative workloads. This 8-core CPU delivers exceptional speed, efficiency, and

responsiveness, ensuring smooth 100+ FPS performance in the most popular global gaming titles.

Unmatched Speed and Efficiency for Socket AM5

Built for the modern Socket AM5 platform, the Ryzen 7 9700X provides a future-ready foundation for your PC build, supporting the latest technologies like ultra-fast DDR5 memory (up to 5600 MHz) and PCIe 5.0 connectivity on compatible motherboards. With a highly efficient 65-watt Thermal Design Power (TDP), this processor achieves dominant performance without excessive power consumption.

Core Specifications and Features:

- **Zen 5 Architecture:** Built on the revolutionary AMD "Zen 5" core architecture for massive leaps in performance and efficiency.
- **High Core Count:** Equipped with 8 cores and 16 processing threads, capable of handling intensive multitasking and demanding applications.
- **Extreme Clock Speeds:** Features a base clock speed of 3.8 GHz and reaches a staggering 5.5 GHz Max Boost frequency, fully unlocked for advanced overclocking.
- **Large Cache Memory:** Benefits from 32 MB L3 cache plus additional L2 cache, totaling 40 MB of combined cache for rapid data access and reduced latency.
- **Integrated Graphics:** Includes powerful built-in Radeon graphics, making system setup and basic productivity seamless (GPU Clock 2200 MHz).
- **Platform Ready:** Designed exclusively for the state-of-the-art AMD Socket AM5 platform, supporting DDR5-5600 MHz memory speeds.

Please note: This is a WOF (Without Cooler) boxed processor. A separate cooling solution suitable for the 65W TDP is required for operation.

AMD is a global semiconductor leader renowned for driving innovation in high-performance computing, graphics, and visualization technologies. AMD processors are trusted by gamers, content creators, and professionals worldwide for delivering superior speed and reliability.

Order today from ++SHOP++ as we offer the best components for building your ultimate high-performance desktop system.

AMD Ryzen 7 9700X

The New Standard for a Gaming Processor

- + This dominant gaming processor can deliver fast 100+ FPS performance in the world's most popular games
- + 8 Cores and 16 processing threads, based on AMD "Zen 5" architecture
- + 5.5 GHz Max Boost, unlocked for overclocking, 40 MB cache, DDR5-5600 support
- + For the state-of-the-art Socket AM5 platform, can support PCIe 5.0 on select motherboards
- + Cooler not included
