Next-Generation Performance and Architecture

Dominate the digital landscape using the powerful Radeon RX 9070 graphics processor. This card features 3584 stream processors, 56 dedicated Ray Accelerators, and an ultra-fast processor boost clock speed reaching 2700 MHz. The integration of 64 MB of Infinity Cache dramatically improves bandwidth efficiency across the 256-bit memory bus, while the PCI Express x16 5.0 interface maximizes data throughput for next-generation systems requiring a minimum system power supply of 650 W.

Advanced Cooling and Premium Design

The sophisticated Sapphire Tri-X cooling technology ensures the powerful 245 W Thermal Design Power (TDP) GPU operates efficiently and quietly under heavy load. This active cooling system utilizes three high-performance fans, making it a 3-slot card (Depth: 61.6 mm, Length: 320 mm). The PURE series is presented in a premium white color (Product colour: White) and supports multi-color illumination, making it a centerpiece in any full-height gaming rig.
