Take control

Show more with a budget-friendly standalone professional TV. The intuitive CMND solution makes it simple to deploy and manage connected displays. Benefit from simple, fast installation and an on-screen welcome page that's easy to program.

CMND&Control: effortless maintenance of your TVs

CMND&Control allows for remote configuration and installation of your TVs from a central location, without the need to visit any rooms. Update and manage all your displays with minimal effort, all without having to disturb your guests.

MyChoice compatible. Built-in pay-to-view solution

Offer pay-to-view content in any situation - from a complete pay-to-access-all-channels model to selected premium content. MyChoice is an integrated solution that allows viewers to access pay-per-view channels via a code or a card.

Be seen. Brand the TV's UI with your logo

Your Philips Professional TV offers a clear, easy-to-navigate user interface (UI) that you can customise with your own branding. Easily add your logo or custom background to the menu to increase the visibility of your brand.

Mixed channel map to combine analogue and digital channels

One integrated channel list for digital and analogue channels. This allows the guest to flick seamlessly between Analogue and Digital channels.

Translucent back cover to uncover hidden materials

The translucent back cover will uncover hidden materials within the TV set. Ideally suited for installations within prisons and detention centres.

Low power consumption for long battery life

Thanks to its simple clock and alarm functions, and the auto-off LED backlight, power consumption is low. A single AA battery is all that is required to power the clock for about a year.

Instant initial USB cloning. Rapidly configure Pro TVs

Provides the ability to easily copy all programming and channel programming settings from one TV into other TV sets in less than a minute. The feature ensures uniformity between TV sets and significantly reduces installation time and costs.
