visual technology, ensuring you see every critical moment clearly and respond instantly.

Extreme Performance for Competitive Edge

Redefine your game with the upgraded 180Hz refresh rate. This massive speed increase ensures ultra-clear, exceptionally smooth motion by loading images 180 times per second, giving you a decisive advantage in fast-moving scenarios. Paired with 1ms Motion Blur Reduction (MBR), blurring and ghosting are virtually eliminated, keeping dynamic objects sharp.

Seamless Gameplay and Visual Fidelity

- **AMD FreeSync:** Enjoy seamless, fluid movement in high-resolution, fast-paced games. This technology significantly reduces screen tearing and stuttering by synchronizing the monitor's refresh rate with your GPU.
- **Dynamic Action Sync (DAS):** Minimizes input lag, allowing gamers to catch critical moments in real-time and react quickly.
- **HDR10 Support:** Reproduces high-fidelity colors with a wide color gamut, enabling you to see the dramatic and true colors that game developers intended, enhancing immersion regardless of the battlefield.
- **VA Panel Technology:** Delivers excellent contrast (3000:1 typical) and wide 178° viewing angles for consistent image quality.

Optimized Gaming Features

The LG UltraGear series includes specialized tools built specifically to enhance tactical play and precision:

- **Black Stabilizer:** Brightens dark areas, helping gamers detect snipers lurking in the deepest shadows and swiftly navigate flash explosions.
- **Crosshair:** Fixes the target point in the center of the screen to significantly enhance shooting accuracy, especially beneficial in FPS titles.
- **FPS Counter:** Provides real-time data on the frame rate, ensuring you can monitor performance instantly.

The monitor features a 3-side virtually borderless design for an expansive, immersive view. The stand offers tilt adjustment (-5° to 15°), allowing you to customize your ergonomic comfort during long gaming sessions.

LG is a global technology leader known for innovation in display technology, delivering high-quality visual experiences through its specialized UltraGear line of gaming products. Order this high-performance monitor today from ++SHOP++ and elevate your gaming setup.

Upgraded speed.

New standard.

We have raised UltraGear's speed standard to 180Hz. You can enjoy ultra-clear and smooth images with a 180Hz refresh rate, which loads images 180 times in a second.

Incredible speed to victory

1ms MBR helps smooth gameplay, reducing blur and ghosting. Dynamic and fast-paced objects amidst all the action can give gamers a competitive edge.

Feel actual combat with true colour

This monitor reproduces high-fidelity colours with HDR 10, allowing gamers to see the dramatic colours that the game developers intended regardless of the battlefield.

Clearer, smoother, and faster

With FreeSync™ technology, gamers can experience seamless, fluid movement in high-resolution and fast-paced games. It significantly reduces screen tearing and stuttering.

Designed for gamer

Enhance your gaming experience with a 3-side virtually borderless design for an immersive view and tilt adjustable base to help you play the game more comfortably.

Match up with your gaming style

Gamers can use On-Screen Display and OnScreen Control to easily customize the setting from adjusting basic monitor options to registering 'User Defined Key' that user can set the shortcut.
