with an aggressively fast 180Hz refresh rate and an advanced IPS panel, this display delivers breathtaking visuals and instantaneous responsiveness. Get closer to winning with smoother motion and vibrant, accurate colors.

Unprecedented Gaming Speed (180Hz & 1ms)

LG has significantly upgraded the speed standard for the UltraGear lineup. Experience incredibly fluid gameplay thanks to the 180Hz refresh rate, which loads new images 180 times per second, virtually eliminating motion blur. Paired with a rapid 1ms (GtG) response time, input lag and reverse ghosting are drastically reduced, ensuring every action is perfectly represented on screen.

Exceptional Visual Quality and Color Accuracy

- **QHD Resolution:** Enjoy sharp, detailed 2560 x 1440 visuals across the large 31.5-inch screen, providing significantly more detail than standard Full HD monitors.
- **IPS Wide Viewing Angles:** The advanced IPS panel ensures stunning images and consistent color clarity from wide viewing angles (up to 178 degrees).
- **VESA DisplayHDR™ 400:** Reproduces dramatic colors and deep contrast, allowing gamers to see the content exactly as intended by the developers.
- **Wide Color Gamut:** Supports 99% (Typ.) of the sRGB spectrum, delivering high-fidelity, true-to-life colors for both gaming and content creation.

Flawless Synchronization with G-SYNC and FreeSync

Achieve perfectly smooth graphics without screen tearing, stuttering, or jittering. The 32GS75QX-B is NVIDIA® G-SYNC® Compatible and supports AMD FreeSync™, synchronizing the monitor's refresh rate with your GPU's frame rate for a flawless gaming experience across various hardware setups.

Ergonomic and Immersive Design

- **3-Side Virtually Borderless Design:** Maximizes screen real estate for immersive viewing and is ideal for multi-monitor setups.
- **Adjustable Comfort:** The versatile stand supports tilt, height, and pivot adjustments, allowing you to find the most comfortable position for long gaming sessions.
- **Award-Winning GUI:** Customize monitor settings easily using the On-Screen Display (OSD) and OnScreen Control features, including registering custom shortcuts.

Order today from ++SHOP++ as we offer the best prices and guaranteed genuine LG products.

Faster movement.

Closer to winning.

Rev up your gaming world with 180Hz speed. Ignite your gameplay with a QHD resolution, IPS wide viewing angles, and a jaw-dropping 180Hz refresh rate.

Upgraded speed.

New standard.

We have raised UltraGear's speed standard to 180Hz. You can enjoy ultra-clear and smooth images with a 180Hz refresh rate, which loads images 180 times in a second.

Sharp image

From any angle

Experience the vibrant visuals with a 1ms fast response time, which reduces reverse ghosting and input lag. In addition, the IPS panel allows you to enjoy these stunning images clearly from a wide angle (up to 178 degrees).

Feel true-to-life colour

This monitor supports a wide color gamut, sRGB 99% (Typ.), and VESA DisplayHDR™ 400, reproducing high-fidelity colors for gamers to see the dramatic colors the game developers intended regardless of the battlefield.

Technology for flawless gaming

Enjoy the perfect graphic with reduced tearing, stuttering, or jittering caused by differences in the hardware and software specification by synchronizing through NVIDIA® G-SYNC® Compatible, AMD FreeSync™.
