## LG 32GS95UX-B UltraGear OLED Gaming Monitor

Experience the pinnacle of gaming immersion with the LG 32GS95UX-B UltraGear OLED gaming monitor. This 31.5-inch display combines stunning 4K UHD resolution with ultra-fast refresh rates, offering both 240Hz and 480Hz dual mode capabilities to suit any game genre. The OLED panel delivers vibrant colors, deep blacks, and impeccable detail, ensuring every visual is breathtaking.

### Features:

- **Dual Mode Innovation:** Switch between 4K UHD at 240Hz for graphically rich games and Full HD at 480Hz for fast-paced FPS and racing games.
- **OLED Display:** Experience vibrant colors and stunning deep black levels with impeccable detail.

- **Pixel Sound Technology:** Enjoy full, rich audio emitted directly from the screen, perfectly complementing the OLED picture quality.
- **Anti-Glare Screen:** Minimize light reflections and stay focused on winning.
- **VESA DisplayHDR™ True Black 400:** Industry-standard brightness and deep black color expression for stunning visual experiences, even in dark scenes.
- **0.03ms Response Time:** Experience smoother scenes with less lag or ghosting, thanks to the nearly instantaneous response time.
- **NVIDIA® G-SYNC® Compatible:** Enjoy faster, smoother gaming with reduced screen tearing and stutter.
- **AMD FreeSync™ Premium Pro:** Fluid, virtually tear-free gaming experience with at least a 120Hz refresh rate at minimum FHD resolution and low latency gameplay.
- **Virtually Borderless Design:** Ultra-thin design optimizes space, and easy height, tilt, swivel, and pivot adjustments allow for personalized viewing angles.
- **HDMI 2.1 and DisplayPort 1.4:** Enjoy smoother, vivid colors and high-resolution graphics with up to 240Hz refresh rates.
- **DTS® Headphone:X®:** Provides accurate spatialization and localization in games for 3D audio over headphones.
- **Warranty:** Protected by a two-year limited warranty covering internal and functional parts and labor, including the OLED Display Panel.

**LG** is a global leader in consumer electronics and home appliances, known for its innovative technology and stylish designs.

LG UltraGear OLED introduces the World's First VESA Certified Dual Mode gaming monitor. This innovation allows gamers to experience graphically rich, story-driven games in 4K/UHD at up to 240Hz or switch to Full HD at up to 480Hz for fast-paced FPS, MOBA or racing games via hotkey.

With Pixel Sound, the screen is essentially the sound. Sound waves are emitted from behind the OLED panel to drive sound from the screen directly at the player - versus speakers from underneath or behind the screen. The result is full, rich audio that's the perfect complement to the impeccable OLED picture quality.

Play with less distractions thanks to an anti-glare screen that minimizes light reflections and lets you concentrate on winning.

VESA DisplayHDR™ True Black 400 certified means this monitor meets industry standards for brightness as well as deep, rich black color expression. The benefit for gaming and streaming content, is impeccable image detail in dark scenes for a stunning visual experience.

Enjoy smoother scenes with less lag or ghosting thanks to LG UltraGear OLED's nearly instantaneous 0.03ms (GtG) response time.

Officially validated by NVIDIA® as G-SYNC® Compatible. That translates to faster, smoother gaming that's been tested to reduce screen tearing and stutter. Never miss a frame of the action as you clinch your victories.

AMD FreeSync™ Premium Pro equips serious gamers with a fluid, virtually tear-free gaming experience. With at least 120Hz refresh rate at minimum FHD resolution and low latency gameplay, you'll never miss a frame of the action as you play at peak performance.

Lose yourself in the game with a virtually borderless, ultra-thin design that optimizes space within your battle station. Easily make height, tilt, swivel and pivot adjustments to the display to be able to see and play exactly to your specs.

Enjoy smoother, vivid colors and high-resolution graphics thanks to HDMI 2.1 and DisplayPort 1.4. Both connections are supported on this display and let you experience up to 240Hz refresh rate.
