free technologies also reduce the strain on your eyes after long periods of use.

Ultra-low Blue Light Monitor

The TÜV Rheinland-certified ASUS Blue Light Filter protects you from harmful blue light, and you can easily access its four different filter settings via a hotkey. VA279HAE has undergone stringent performance tests and has been certified by TÜV Rheinland laboratories, a global provider of technical, safety, and certification services, to be flicker-free and to emit low blue light levels

Flicker-free Technology

It's time to say goodbye to those tired, strained eyes. VA279HAE features TÜV Rheinland-certified ASUS Flicker-Free technology to reduce flicker for a comfortable viewing experience. This technology helps minimize instances of eyestrain and other damaging ailments, especially when you spend long, countless hours in front of a display watching favourite videos.

Exclusive GamePlus function

Exclusive GamePlus function hotkey to enable OSD crosshair and timer functions. Select from four different crosshair to suit your gaming environment, and keep track of spawn and build times with the on-screen timer.

This function is co-developed with input from pro gamers, allowing them to practice and improve their gaming skills.
