

Graphics Card ASUS Dual Radeon RX 9060 XT 8GB GDDR6

Modelis: 90YV0MI1-M0NA00

Gamintojas: ASUS

EAN: 4711387994269

Prekės kodas: 401308

461.99€

ASUS Dual Radeon RX 9060 XT 8GB GDDR6 Graphics Card

The ASUS Dual Radeon RX 9060 XT delivers exceptional graphics performance optimized for broad compatibility and compact PC builds. Combining advanced thermal solutions inherited from flagship models, this powerful 8GB GDDR6 GPU fits into a streamlined 2.5-slot form factor, making it the perfect choice for gamers seeking high-end performance without sacrificing space.

Optimized Cooling and Durability

Engineered for maximum efficiency, the ASUS Dual series employs specialized cooling features to maintain optimal temperatures even during the most demanding gaming sessions. The thoughtful design ensures powerful heat dissipation in a minimized footprint.

- **2.5-slot Compact Design:** A meticulously crafted heatsink and heatpipe layout allows the two Axial-tech fans to effectively utilize chassis side-panel ventilation, providing thermal performance exceeding its compact size.
- **Axial-tech Fan Technology:** Features two robust fans with a smaller hub that facilitates longer blades and a specialized barrier ring, significantly increasing downward static air pressure onto the heatsink.
- **0dB Technology (Silent Operation):** Eliminates unnecessary noise by automatically halting both fans when the GPU temperature remains below 55°C and power consumption is low, ideal for light tasks and multimedia.
- **Dual Ball Fan Bearings:** Offering superior longevity, these durable ball bearings last up to twice as long as traditional sleeve-bearing designs, ensuring extended fan lifespan and stability.
- **Vented Protective Backplate:** A strategic vented backplate enhances overall heat dissipation and airflow, helping to prevent overheating and thermal throttling, boosting long-term stability and performance.
- **Connectivity and Power:** Utilizes the high-speed PCI Express 5.0 interface and comes equipped with a generous 8 GB of GDDR6 memory on a 128-bit bus, supporting a maximum digital resolution of 7680 x 4320 pixels.

ASUS is a world-renowned technology leader known for creating innovative and high-quality hardware components, especially trusted by PC builders and competitive gamers for reliability and cutting-edge engineering.

Order today from ++SHOP++ as we offer the best deals and fast shipping on cutting-edge gaming components.

Dual Radeon™ RX 9060 XT

Dual Fans, Perfect Fit

ASUS Dual Radeon™ RX 9060 XT combines powerful thermal performance with broad compatibility. Advanced cooling solutions from flagship graphics cards — including two Axial-tech fans for optimizing airflow to the heatsink. Designed in a compact 2.5-slot form factor, delivering more power in less space. These enhancements make ASUS Dual the perfect choice for gamers who want heavyweight graphics performance in a compact build.

Cooling

2.5-slot Design

A carefully designed shroud, heatsink, and heatpipe layout enables the two Axial-tech fans to leverage chassis side-panel ventilation, delivering thermal performance that beyond the compact size.

Axial-tech Upgrades

Two tried-and-true Axial-tech fans feature a smaller hub facilitates longer blades and a barrier ring to increase downward air pressure.

0dB Technology

To eliminate unnecessary noise, the stop mode automatically halts all fans when the GPU temperature drops below 55°C and power consumption is low.

Dual Ball Fan Bearings

Fan bearings come in different types, each with its own advantages. Dual ball bearings provide superior durability and can last up to twice as long as sleeve-bearing designs.

Vented Backplate

A vented backplate significantly enhances heat dissipation, helping to keep the GPU cooler during intense tasks. This additional airflow helps ensure optimal temperatures, boosting performance, longevity and stability by defending against overheating and thermal throttling.
