viewing angles.

Exclusive BenQ Eye-Care Technology

BenQ leads the industry in vision health. The GW2283 features certified TUV Rheinland eye-care technologies designed to protect your eyes during extended viewing sessions:

- **Brightness Intelligence Technology (B.I.Tech):** Optimizes display brightness automatically based on ambient lighting and content intensity. This prevents overexposure in bright areas while enhancing clarity in dark scenes, ensuring superb image quality without straining your eyes.
- **Low Blue Light:** Proprietary technology filters out hazardous blue light, significantly reducing eye fatigue and irritation.
- **Flicker-Free Performance:** Eliminates the harmful flickering associated with traditional LCD displays, preventing vision damage and fatigue.

Superior Visual Performance and Design

The GW2283 delivers brilliant Full HD (1920x1080) resolution at a 60 Hz refresh rate and features 8-bit color depth, rendering 16.7 million shades for smooth transitions and impeccable image quality. The thoughtfully designed exterior enhances functionality and appeal.

- **Ultra Slim Bezel:** Provides a visually spectacular edge-to-edge viewing experience, making multi-monitor setups nearly seamless.
- **Hidden Cable Management:** Wires are neatly concealed within the sculpted monitor stand, maintaining a clean and organized desktop.
- **Connectivity:** Equipped with dual HDMI 1.4 ports and a VGA input, allowing easy switching between multiple multimedia sources such as laptops, game consoles, and desktop PCs.
- **IPS Wide Viewing Angle:** Consistent color accuracy and high contrast are maintained even when viewing from extreme angles (178°/178°).

BENQ is a globally recognized technology company known for developing innovative digital lifestyle devices, specializing in visual display solutions that prioritize performance, user experience, and environmental sustainability.

Designed for beautiful simplicity, BenQ's GW2283 21.5" frameless monitor combines ultra slim bezels with hidden cable management. Complementing BenQ's exclusive Eye-Care™ Technology with Low Blue Light Technology and Flicker-Free performance for extended viewing comfort, the industry-leading Brightness Intelligence Technology delivers exquisite details in any ambient lighting environment. Built with the dream combination of LED with IPS panel, GW2283 is bound to bring a whole new visual experience and enjoyment to you with truly authentic colors, deeper blacks, higher contrast and sharper details.

Understated, Stylish and Sophisticated Design

GW2283 comes with a stylish and sophisticated design that boasts an elevated level of elegance while helping to enhance the overall productivity. Empowered by the premium etching texture and sculpted base, GW2283 resists fine scratch whirls and eliminates extraneous edges for a clean, functional appeal. Additionally, the edge-to-edge panel with ultra slim bezels can complement any modern décor. To ensure the cleanest look, GW2283 offers an invisible cable management system to neatly hide all wires inside the monitor's stand.

Texture

Premium texture etching resists fine scratch whirls with a luxurious touch.

Sculpted Base

Gracefully sculpted base profile eliminates extraneous edges for clean functional appeal.

Ultra Slim Bezel Design

GW2283 offers a visually spectacular edge-to-edge panel with ultra slim bezels and elegant profile that beautifully complements any modern decor.

Cable Management System

Invisible cable management system neatly hides all wires inside the monitor stand for the cleanest look.

Brilliant Picture Quality

IPS Wide Viewing Angle Technology

IPS (In-Plane Switching) Technology provides accurate color and image reproduction from any angle.
