Exceptional Visual Quality and Smooth Performance

Equipped with an advanced IPS panel, the GW2790 ensures superior color accuracy and wide 178° viewing angles, maintaining image integrity from virtually any perspective. With 99% sRGB color gamut coverage, designers and photographers can rely on vibrant, true-to-life colors.

- **Smooth 100 Hz Refresh Rate:** Experience smoother motion and reduced lag during video streaming, casual gaming, and general web browsing compared to standard 60 Hz monitors.
- **Full HD IPS Clarity:** 1920 x 1080 resolution on a 27-inch screen provides an excellent balance of screen real estate and image sharpness.
- **Fast 5 ms Response Time:** Minimizes ghosting and blurring, ensuring a clear picture during rapid transitions.
- **High Color Fidelity:** Supports 16.7 million colors and 99% sRGB color space for demanding visual tasks.

Advanced Eye-Care Technology for Long-Lasting Comfort

BenQ places user health first, integrating a suite of certified Eye-Care technologies (TÜV Rheinland and Eyesafe 2.0 certified) designed to drastically reduce eye strain during extended usage periods.

- **Brightness Intelligence Technology (B.I.Tech.):** Automatically optimizes screen brightness and contrast based on ambient light conditions and content displayed, ensuring comfortable viewing in any environment.
- **Flicker-Free Technology:** Eliminates traditional screen flickering at all brightness levels, preventing eye fatigue and headaches.
- **Low Blue Light Plus:** Filters out harmful shorter, higher-energy blue-violet light while maintaining color accuracy and vibrancy.
- **Specialized Viewing Modes:** Includes **ePaper Mode** for a simulated e-book reading experience and **Coding Mode** with optimized contrast for better readability of text and code.
- **Color Weakness Mode:** Assists users with color deficiency by adjusting color filters (red and green) for easier distinction.

Connectivity and Ergonomics

VESA Certified MediaSync Guarantees

VESA Certified MediaSync guarantees jitter-free playback, supporting all international broadcast video formats for an optimal multimedia experience.

Coding Mode

Color Modes for Multi-Usage

Coding mode is designed to make every color stand out for easy readability with optimized contrast and saturation of dark mode.

ePaper Mode

Color Modes for Multi-Usage

ePaper Mode, the simulated e-book display, balances the text and background to make long reading sessions easier on the eyes.

Lasting Well-Being on Your Eyes

During long usage from day to night, the Brightness Intelligence sensor detects light changes in your viewing environment and actively adjusts the screen brightness for a comfortable viewing experience. B.I. Gen2 allows for a higher degree of adjustability with customizable screen brightness to adjust to your preferences while caring for your eyes.

Brightness Intelligence Technology

The Brightness Intelligence Technology (B.I.Tech.) detects content intensity to avoid overexposure of bright scenes while enhancing dark areas to maintain clear visibility. The display performance is ideal for both work and fun, protecting your vision with superb imagery quality.

Low Blue Light Plus Technology

This technology maintains vivid colors while filtering out shorter, higher energy blue-violet radiation that is harmful to the eyes

Flicker-Free Technology

The exclusive BenQ Flicker-Free Technology eliminates flickering at all brightness levels to reduce eye strain, fatigue, and headaches.

Color Weakness Mode

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Gamintojas ir pardavėjas neatsako už galimus duomenų neatitikimus ar tipografines klaidas. Prieš įsigyjant rekomenduojame pasitikrinti aktualią informaciją.

The red and green filters on the monitor help individuals with color deficiency distinguish colors more easily.

ePaper Mode

The simulated e-book effect with clear black and white reading layout provides a better reading experience.

TÜV Rheinland Certified

Global safety authority, TÜV Rheinland, certified the GW2790's Flicker-Free and Low Blue Light Technology as truly friendly to the human eye. Eyesafe 2.0 certification ensures that the display reduces blue light while maintaining vivid colors.

Eye-CareU

Leave it to the compatible software of Eye-CareU on the GW2790 to set timers, light reminders, and distance reminders to correct your posture as you focus on what you do best. The pop-up works as an assistant, allowing for quick navigation and settings via its quick on-screen control.

Discover the perfect blend of form and function with the BenQ GW2790 monitor, designed to deliver an exceptional viewing experience for both work and play. This 27-inch LED-backlit LCD monitor combines a sleek, flat-front design with advanced technologies to provide superior image quality and eye comfort. With features like a 99% sRGB color gamut, Full HD (1080p) resolution, and IPS technology, it offers vibrant, accurate colors and wide viewing angles, making it ideal for graphic designers, photographers, and any user who values visual precision.

The GW2790 goes beyond just impressive visuals. It's built with your eye health in mind, featuring Eye-Care Technology, Flicker-Free technology, and Low Blue Light Plus technology to reduce eye strain during long hours of use. Brightness Intelligence Technology automatically adjusts brightness based on content and ambient light, ensuring a comfortable viewing experience at all times.

Whether you're working on detailed design projects, watching movies, or gaming, this monitor is designed to enhance your multimedia experience while keeping your eyes comfortable.

Efficiency meets eco-friendliness in the BenQ GW2790's design. It operates on a low power consumption of just 25 W, earning it an ENERGY STAR rating. This monitor not only elevates your viewing experience but also contributes to energy savings. With its combination of advanced features, eye-care technology, and energy efficiency, the BenQ GW2790 is an excellent choice for anyone looking to upgrade their visual setup.
