## Aprašymas

### BioniX P140

#### Pressure-optimised 140 mm Gaming Fan with PWM PST

The BioniX P140 fan features completely redesigned fan blades and is optimised for high static pressure. Thus, the BioniX P140 is especially effective when used on heatsinks and with higher air resistance.

The wide RPM range from 200 to 1950 RPM can be regulated seamlessly and synchronously with other fans thanks to ARCTIC's PWM Sharing Technology (PST).

The newly developed motor with a low coil temperature significantly increases the life span of the fan. Therefore we have extended the warranty to 10 years.
