The 360-degree protection pack prolongs the lifetime of your phone so that one day you can pass it on to someone else who will love it just as much as you do. This is one way of working toward a more sustainable future. Another is to use less packaging: For this pack, we have managed to reduce the paper packaging by approximately 58%\* compared to previous packs. This product comes in a recyclable FSC™-certified box.

Installation is also easy. Just apply the camera lens protector, click on the HardCase and use the EasyAligner to mount the screen protector. To make it even easier, we've included step-by-step instructions as well as a QR code for quick access to our online how-to video. And once everything is installed, you'll never again fear the sight of your phone tumbling to the ground. This may not happen, but if it does, you'll regret not having clicked "add to cart".

\*Estimated by comparing the paper weight with our 2022 packaging.
