## Performance and Precision

Equipped with a high-performance 18,000 DPI precision optical sensor, the IRONCLAW RGB delivers pixel-perfect tracking crucial for competitive play. Sensitivity is fully customizable, allowing real-time switching between 100 and 18,000 DPI. The ergonomic, contoured shape ensures extended comfort during long gaming sessions, while the lightweight design prevents fatigue.

### Key Features:

- High-Accuracy 18,000 DPI Optical Sensor for ultimate tracking performance.
- Optimized for Palm-Grip and Larger Hands, ensuring maximum comfort and control.
- Seven programmable buttons (7 Qty) provide quick access to macros and commands.
- Durable OMRON switches rated for 50 million clicks guarantee long-term reliability.
- Two distinct RGB lighting zones allow personalized customization via the Corsair Utility Engine (CUE).
- Wired USB connectivity with a long 1.8 m braided cable for tangle-free movement.
- Smooth gliding Polytetrafluoroethylene (PTFE) feet and customizable report rate (up to 1000 reports per second).
- Built-in flash memory allows saving custom profiles directly on the device.

The CORSAIR IRONCLAW RGB is built for competitive gaming, offering the speed, responsiveness, and comfort needed to dominate. Its standard dimensions are 8 cm x 13 cm x 4.5 cm.

**CORSAIR** is a globally recognized leader in high-performance gear and technology for gamers, enthusiasts, and PC builders. They are renowned for their quality memory modules, power supplies, and innovative gaming peripherals, backed by a 2-year manufacturer warranty.
