Equipped with a massive 16 GB of high-speed GDDR6 memory, the Predator RX 9070 XT ensures seamless texture loading and smooth multitasking, even at 4K resolution. This Overclocked (OC) edition provides enhanced clock speeds right out of the box, guaranteeing maximum performance potential for demanding applications.

## Connectivity and Advanced Features:

- **Powerful VRAM:** 16 GB GDDR6 memory handles intensive graphics workloads and large texture sets with ease.
- **PCI Express 5.0:** Future-proof connectivity offering doubled bandwidth compared to previous generations, optimizing data transfer between the GPU and CPU.
- **Overclocked Edition:** Factory overclocking delivers superior performance and higher clock speeds for competitive gaming.
- **Display Output:** Features 1 dedicated HDMI port for flexible display connection options.

Built upon the cutting-edge PCI Express 5.0 interface, this card maximizes throughput, eliminating bottlenecks and ensuring that your GPU operates at peak efficiency. Experience ultra-responsive gameplay and the visual fidelity that only dedicated high-end gaming hardware can provide.

**ACER** is a global leader in computing hardware, and their **Predator** line is specifically engineered to meet the stringent demands of professional gamers. The Predator Radeon RX 9070 XT exemplifies this commitment to performance and reliability.
