## **THE RIGHT-PRICED RUGGED TABLETS THAT HAVE IT ALL — RIGHT OUT OF THE BOX**

You're considering purchasing consumer-grade tablets for your business because the cost is right — and while the feature set may not be ideal, it seems good enough. But there are hidden costs — such as a case to increase durability or a scanner for tasks that require heavy barcode scanning. Without the right durability, you'll need to replace tablets more frequently — and short product lifecycles create a mixed model deployment that is more complex and time-consuming to support. Introducing the ET40 and ET45, the right-priced enterprise tablets that are built for business. You get everything you need, right out of the box. Thin and light consumer styling that is business tough. Integrated enterprise-class scanning. The fastest wireless connections. A multi-year lifecycle. Powerful new communication options. New solutions that add new capabilities. Zebra-only Mobility DNA tools that improve every aspect of the device lifecycle. And more. The ET40/ET45 Enterprise Tablets — everything you need to do business right, at the right price.

## **A business-class lifecycle with guaranteed availability and support**

These tablets are built to last years — and you can count on support every day your devices are in service — for six years from the initial sale date. Zebra's optional OneCare Essential and Select support services provide all the options you need to choose the right level of service for your

business. And unlike consumer tablets, Zebra guarantees that the exact model you purchase today will be available for three years, simplifying device support.

## **A STRONG ROI THAT MAKES BUSINESS SENSE**

### **Rugged and ready for all-day business**

The ET40 and ET45 are built for business from the inside out, delivering reliable operation you can count on. Drop it on tile or concrete floors. Use it inside and outside, even in the heat or subzero temperatures. Hose it off. It still works. And if you work in more demanding environments, no problem — just add the optional rugged boot for even more durability.

## **WORK FASTER AND SMARTER WITH ALL THE RIGHT BUSINESS OPTIONS**

### **Choose your screen size**

Choose the screen size that's right for the job — a compact easy-to-carry 8 inch screen or a larger 10 inch display for easier viewing of information rich apps.

### **Fastest wireless connectivity to keep you connected anywhere**

Get the fastest Wi-Fi and cellular speeds with Wi-Fi 6 and 5G. The Wi-Fi only ET40 is ideal indoors in retail and hospitality, while the Wi-Fi and cellular ET45 is ideal for delivery drivers and more out in the field. Connect cordless headsets, printers and more with Bluetooth to create a complete wireless solution. Enable locationing with GPS — from directions to the next delivery stop to tracking driver location. And enable private LTE networks for cost-effective wireless connectivity in the largest indoor and outdoor facilities with support for Citizens Broadband Radio Service (CBRS).
