- **Rugged Design:** Passes real-world tests for drop resistance, dustproof, and waterproof capabilities, ensuring durability in harsh conditions.
- **Versatile Mounting:** Compatible with a patent-pending vehicle dock for use in forklifts, delivery trucks, and other vehicles.
- **AI-Enhanced Performance:** Dedicated AI engine supports new-generation AI applications, enhancing touchscreen accuracy and audio clarity.
- **Windows 11 IoT Enterprise:** Provides a secure and reliable operating system for enterprise applications.
- **High Performance:** Powered by Intel Core Ultra 5 125U processor with integrated Intel Graphics for efficient and responsive performance.
- **Connectivity:** Wi-Fi 7 and Bluetooth 5.4 for fast and reliable wireless connections.

Zebra is a well-known manufacturer of rugged and reliable enterprise solutions, designed to enhance productivity and efficiency in various industries. Their products are built to withstand challenging environments and deliver consistent performance.

Order today from ++SHOP++ as we offer the best prices and fast delivery on all Zebra products.

The most versatile rugged Android and Windows business tablets

Maximise productivity and business efficiency with the business tablets that deliver more — more features, more power, more security, more ruggedness and more versatility. These Android and AI-driven Windows tablets are designed for work. The ET6x Series enterprise tablets offer all the beauty of consumer-styling, yet they're built like a tank, ready for the most punishing environments. The dedicated AI engine in the ET6x Windows tablets provides plenty of power to run AI applications — and embedded AI technology enhances the user experience. You can use all the models in this flexible series as a tablet, a laptop alternative or a vehicle mount computer. And these workhorses are loaded with features that help get the job done faster and more efficiently.

A New Era of Rugged

These tablets pass more real-world tests than any other tablet in their class. They're drop-tested to concrete, dustproof, freezer-proof, rated for hose-downs, ready for all the elements including rain, snow, ice. Additional tests that make these tablets even more rugged include thermal shock, heavy exposure to sunlight and an impact test on the touch screen.

Mount in any Vehicle

Just lock any model into the new patent-pending vehicle dock with heated connectors and mount in any vehicle — from forklifts and clamp trucks in warehouses and docks to delivery trucks and first responder vehicles. The ET60 Freezer model display and warehouse keyboard are heated (Android only) – a feature no other tablet today offers. And just snap on the friction hinge keyboard to turn any tablet in this series into true 2-in-1 laptop alternatives — ideal for jobs that call for heavy data entry.

Redefine Workforce Efficiency with AI

Put powerful AI technology in the hands of your workers with the ET60W and ET65W Windows tablets. The dedicated AI engine supports the new generation of AI apps, enabling mobile users to work smarter — and faster. Expand the functionality of two key features with embedded AI technology — the touchscreen and audio. The touchscreen instantly recognises and adjusts to any method of input, providing pinpoint accuracy in all-weather conditions — even with heavy gloves. And the latest machine and neural network technologies take noise suppression to the next level, ensuring clear and crisp voice, even in the loudest environments.
