- **Auto EcoView:** Automatically adjusts brightness to ambient light, reducing glare and eye strain.
- **Versatile Connectivity:** Equipped with four inputs for digital and analog signals, a USB hub, and headphone/audio connections.
- **Compact Design:** Thin housing edge makes it ideal for multi-screen setups.
- **Screen InStyle Software:** Allows easy operation via computer or network, in addition to the on-screen menu.

The low-reflection surface, optimized brightness, and contrast contribute to a comfortable viewing experience, minimizing eye strain during long work sessions. Connectivity is a breeze with four inputs for digital and analog signals, a USB hub, and audio connections. The monitor's thin housing edge makes it particularly suitable for multi-screen setups, offering a seamless visual experience.

EIZO is a Japanese company known for manufacturing high-end monitors. Their products are engineered for exceptional image quality, ergonomics and reliability.

Order today from ++SHOP++ as we offer the best prices and fast shipping.

The FlexScan EV2410R impresses as a flexible all-rounder and is ideal for the classic office workstation. Energy-saving, eyefriendly and ergonomic, it is an indispensable helper on any desk and enables efficient working. Equipped with an IPS panel, it has a horizontal and vertical viewing angle of 178° and a resolution of 1920 x 1200 pixels. The low-reflection surface, brightness and contrast ensure a detailed and excellent image reproduction. Auto EcoView automatically adjusts the brightness to the ambient light to avoid glare and protect the eyes. Four inputs for digital and analog signals, a USB hub and headphone and audio connections ensure versatile connectivity. Thanks to the thin housing edge, the monitor has a very compact appearance and is particularly suitable for multi-screen operation. In addition to the on-screen menu, the accompanying Screen InStyle software enables easy operation via computer or network.
