The FlexScan EV2720S is a universal monitor with excellent image quality that impresses with its energy efficiency, ergonomics and reliability. With a diagonal of 27 inches and 2560 x 1440 pixels, it creates plenty of space for efficient working. The IPS panel with a detail resolution of 109 ppi and a contrast of 1500:1 ensures optimum readability, while the matte anti-glare coating and flicker-free brightness control with Auto EcoView ensure glare-free viewing. The monitor receives image, audio and USB data via the USB-C interface and offers 70 W charging power for fast and convenient notebook connection. Additional connection options are available thanks to DisplayPort and HDMI inputs as well as four USB downstream ports. The picture-in-picture mode allows different signal sources to be displayed simultaneously, ideal for connecting two computers. The virtually frameless design draws the eye to the essentials and supports clarity, especially in multi-monitor operation. A flexible stand allows the monitor to be rotated, swiveled and tilted for a comfortable sitting position. Controls, brightness sensor and speakers are integrated into the slim front panel. Thanks to its EcoView functions, the monitor impresses with its low power consumption. In short, the EV2720S is perfect for modern workstations in the office or at home.
