- **USB-C Docking:** Simplifies connectivity by providing power, video, audio, and USB data through a single cable.
- **94W Power Delivery:** Charges your laptop or tablet while you work, reducing cable clutter.
- **Multiple Ports:** Includes two HDMI ports, one DisplayPort, and USB-C for versatile connectivity.
- **Keyboard/Mouse Switcher:** The two USB upstream ports on the EV2740X allow it to be used as a keyboard/mouse switcher
- **Picture-by-Picture Function:** Displays two signal sources simultaneously for enhanced multitasking.

The FlexScan EV2740X is designed for seamless transitions between office and home environments, making it ideal for notebook and tablet users. The color-coordinated cables and availability in black or white ensure it fits perfectly into any workspace.

EIZO is a Japanese company renowned for producing high-end monitors that deliver exceptional image quality, reliability, and ergonomic features. Their monitors are trusted by professionals in various industries, including healthcare, graphic design, and finance.

The EV2740X makes a clear statement for performance. 4K UHD resolution, USB-C docking and 94 W Power Delivery are convincing. Its 163 dpi display quality ensures crisp graphics and text. Docking convenience via its USB-C interface makes the FlexScan EV2740X the ideal display solution for professional office or CAD applications. Switching smoothly between office and home office is a breeze thanks to the USB-C port. Especially notebook and tablet users benefit from this. A single connection to the computer is sufficient for charging power, video signal, audio and USB data including network. The casing is available in black or white; even the cables are color-coordinated. The monitor is equipped with two HDMI ports as well as one DisplayPort and USB-C port each. With its two USB upstream ports, the EV2740X can be used as a keyboard/mouse switcher. For example, if both a home PC and a company computer are connected to the monitor in the home office, both computers can be operated with a single keyboard and mouse. When using its Picture-by-Picture function, it even displays two signal sources simultaneously.
