Next-Generation Performance and Speed

The RTX 5060 ELITE is built to handle the future of PC gaming. Featuring 8 GB of ultra-fast GDDR7 memory on a 128-bit bus, it delivers the necessary bandwidth for high-resolution textures and rapid frame rates. The impressive core clock speed of 2722 MHz ensures that every calculation is executed swiftly, providing a smooth and responsive experience whether you are gaming in 4K or tackling intensive rendering tasks.

Key Specifications:

- **GPU:** NVIDIA GeForce RTX 5060, optimized for high-end gaming and ray tracing technology.
- **Memory:** 8 GB GDDR7 VRAM, offering superior speed and data transfer rates compared to previous generations.
- **Core Clock:** High processor frequency up to 2722 MHz.
- **Interface:** Future-proof PCI Express 5.0 interface for maximum data throughput.
- **Resolution:** Supports extreme digital resolutions up to 7680 x 4320 pixels (8K).

AORUS ELITE Cooling System

To maintain maximum performance under load, the AORUS ELITE model utilizes an advanced Active cooling solution featuring three high-efficiency fans. This sophisticated thermal design efficiently dissipates heat, allowing the GPU to sustain its boost clock speeds longer without overheating. Furthermore, the integrated multi-colour illumination enhances your rig's aesthetic, reflecting the premium design ethos of the AORUS series.

Connectivity and Compatibility

Connectivity is versatile and comprehensive, featuring three DisplayPort outputs and a single HDMI port, enabling multi-monitor setups and compatibility with the latest high-refresh-rate displays. Supporting DirectX 12.0 and OpenGL 4.6, this card ensures full compatibility with modern gaming APIs and rendering tools.

GIGABYTE is a world-renowned leader in developing high-performance PC hardware, known for its commitment to quality and cutting-edge innovation, particularly within the premium AORUS gaming ecosystem.
