- **Android 11 OS:** Offers a smooth and intuitive user experience for content management and application use.
- **iiSignage² Software:** Simplifies content creation and management.
- **Signal FailOver:** Ensures continuous operation by automatically switching to an alternative input source if the primary source fails.
- **ELED VA Panel:** Consumes less power than DLED IPS panels while maintaining the same level of brightness.
- **24/7 Reliability:** Designed for continuous operation in demanding environments.

This ELED VA display consumes significantly less power compared to DLED IPS while maintaining the same level of brightness. Its versatile orientation, sleek design, and 24/7 reliability ensure it seamlessly integrates into any business environment. Whether for retail, corporate, hospitality, or educational settings, the LH3260HS-B1AG will captivate your audience and leave a lasting impression.

Iiyama is a leading manufacturer of computer monitors and display solutions, known for their reliability, image quality, and innovative technologies. Iiyama is committed to providing high-performance displays that meet the needs of various professional and consumer applications.
