Aprašymas

C920e is a work-from-anywhere webcam that delivers HD video meetings that look and sound better than most laptop built-ins.

The 78° diagonal field of view displays individual users in a well-balanced visual frame while two integrated omnidirectional mics capture audio clearly from up to one meter away.

Built-in HD autofocus ensures you're seen clearly when on camera, while a detachable privacy screen flips up and down to cover or expose the lens. C920e is designed with a sturdy, adjustable clip that makes it easy to mount on any laptop or external monitor. Plus it has a 1/4" thread to enable mounting to a tripod.

C920e works with all popular video calling applications, including Microsoft Teams, Skype for Business, Google Voice and Meet, Zoom and others to ensure compatibility and seamless integration in the workplace.
